Brainerd, Minn.

HEAT WAS TERRIFIC

CHICAGO EXPERIENCES THE HOTTEST DAY IN WEATHER BU. REAU HISTORY.

102 DEGS. IN THE SHADE

Hot Wind Adds to the Suffering of the Inhabitants—Windows and Doors Were Closed to Keep Out the Air. Other Points Report Record Breaking Weather—Early Corn Crop in Kansas Considered a Failure.

Chicago, July 11.—Not since the establishment of the weather bureau has this city experienced such terrific heat as affected it during the day, 102 in the shade in the office of the weather bureau being the high record, the highest previous mark being July 16, 1887, when it reached 99.3. One hundred and two in the shade was, however, the easiest part of the day. The wind blew with force from the west and southwest, and a hotter, more stifling air was never felt in this city before. It seemed to add 20 degrees to the misery causing power of the heat. So hot did it become during the afternoon as the wind drove the hot air into the windows and doorways, that all through the business section tenants of offices slammed down their windows to keep out the air. At the theaters where matinees were in progress men were stationed at the front doors to keep them closed as much as possible. If any comfort was to be found it was by shutting out the breeze. Down on the street level in the shade the mercury was but little above that in the Auditorium tower, but in the sun and street crossings it was anywhere from 105 to 110. The air was so dry, however, that its effects were not so disastrous as would have been the case if greater humidity had prevailed. At night the wind changed to the northward, blowing off Lake Michigan, with the result that the mercury went down 20 degrees within an hour.

EARLY CORN DESTROYED.

Kansas Crop Ruined by the Heat and Drouth.

Topeka, Kan., July 11.—Kansas is just as hot and many degrees drier. The temperatures throughout the state ranged from 100 to 108. On account of the dryness of the atmosphere few prostrations were reported, but the damage to crops and fruit was widespread.

Corn has been seriously damaged, though there is yet some hope for the late product. Early corn will not yield anything. Late corn shrivels up during the day, but at night unfolds again. The farmers are cultivating it well and the weeds are entirely missing. If the rain comes within the present week Kansas will yet have a good crop of late corn.

The splendid fruit prospects of early shippers are entirely blighted. Berries and small fruits are a total loss. Apples, peach and pear trees, laden with half grown fruit, are shriveling up and drying in the fierce heat. There is widespread depression throughout the state because of the drouth, which is the worst experienced here. But Kansas farmers are better prepared to endure the consequences of a drouth now than for many years past. The wheat crop was never better and most of the farmers are out of debt.

Hottest Day This Summer.

St. Louis, July 11.—At 3 p. m. the government thermometer registered 103 in the shade, while on the streets in the sun the temperature was many degrees higher. According to the weather bureau this is the highest point reached here this summer. Within the past 24 hours eight persons, whose minds have been affected by the heat, were received at the hospital.

Missouri Corn Crop Killed.

St. Joseph, Mo., July 11.—The temperature in the heart of the city was 109, the highest point reached this summer. The corn crop in the northern part of Missouri is killed, the first time in the history of the Platte purchase. Wells and springs are going dry and the loss of live stock promises to be very heavy unless rain comes very soon.

Warmest in Twenty-eight Years.

Burlington, Ia., July 11.—The hot wave continues here with the mercury at the highest point this season, 110 in the shade. The official weather observer reported 102 by the government thermometer, the hottest official record for 28 years.

Hottest Ever Known.

Davenport, Ia., July 11.—The maximum temperature was 105 degrees. This is 3 degrees hotter than ever before recorded at the local weather office.

PRESIDENT OF IOWA COLLEGE.

Nominated for Head of the National Educational Association.

Detroit, July 11.—Two general meetings of the National Educational association, of the Indian educational department and 10 separate department meetings kept the delegates to the 49th National Educational association convention busy during the day.

The nominating committee selected the following officers who will be voted on later by the convention:

President, W. M. Bradshaw, president of Iowa college; treasurer, Charles H. Keyes of Hartford, Conn. Eleven vice presidents were also placed in nomination. It is considered probable that the convention will ratify these nominations.

Dined at Copenhagen.

Copenhagen, July 11.—At the dinner tendered the commanders and officers of the United States training ship Hartford and the school ship Enterprise by the crown prince and the royal family, the royal prince toasted President McKinley and the United States of America.

End of a Long Feud.

Owensboro, Ky., July 11.—David Smith, one of the most noted characters in Western Kentucky, was shot and killed by Charles Dunn. The men had a feud of long standing.

Thirteen Were Injured.

El Paso, Tex., July 11.—An explosion occurred in the engine room of the Kansas City Consolidated Smelter company, which set fire to the building, causing a loss of \$150,000. Thirteen men employed at the works were injured, one fatally.

SIXTEEN ARE KILLED

TERRIBLE RESULT OF THE COLLISION ON THE CHICAGO AND ALTON ROAD.

MANY OTHERS INJURED

Westbound Passenger Train Collides With a Fast Live Stock Train, Both Going at Full Speed—Locomotives Demolished and Piled Up in a Heap With Two of the Passenger Cars. Two Bodies Unidentified.

Kansas City, July 11.—The full horror of the train wreck on the Chicago and Alton railroad, near Norton, Mo., when a westbound passenger train collided with a fast live stock train, both going at good speed, was not realized until a train loaded with bruised and scalded people arrived here and transferred its sufferers to the hospitals. First reports of the accident indicated that four trainmen and two passengers were killed outright. Of the wounded who started for this city, four were dead before the train arrived and six passed away at the hospitals before midnight, making 16 deaths up to the present time. In St. Joseph's and University hospitals are 39 persons, at least two of whom are expected to die. The physicians will not give an opinion as to the condition of the sufferers. Most of them were scalded by the steam that issued from the locomotives, both of which were wrecked and piled up in a heap with two of the passenger cars. Identification of those of the dead who passed away without regaining consciousness was difficult, owing to the fact that clothing had been hastily stripped from the bodies in order to give relief to the tortured flesh. Two of the bodies are unidentified—one a young woman killed at the wreck and supposed to be a daughter of Mrs. R. J. Curtis of Geneseo, N. Y., and the other a gray haired woman, who died at St. Joseph's hospital. Ten bodies are at various undertaking establishments. The bodies of four of the dead trainmen are at Slater, Mo. The wounds of the victims are very painful, being severe scalds and burns. They are receiving the best of treatment. A man who died at St. Joseph's hospital is known to be named Jones and it is believed he is from Chicago. His clothes were destroyed.

CLOUDBURST IN MONTANA.

Crops Destroyed and Many Bridges Washed Away.

Helena, Mon., July 11.—A cloudburst occurred near Wickes, Mon., about 25 miles from Helena, doing immense damage. The Montana Central railway suffered heavily, the railway a short distance from that town being damaged for about 600 feet, bridges were washed away and the approaches destroyed, so that it will be a week before permanent repairs are made.

At Corbin, a few miles below Wickes, the concentrator of the Helena and Livingston Smelter and Refining company was damaged to the extent of several thousand dollars. The business portion of that town was flooded and stocks of merchandise of all kinds ruined.

About seven miles below Corbin the farms of a number of ranchmen were overflowed and crops destroyed. Country roads and bridges for about eight miles were damaged and washed out. There were no fatalities. By the time the wall of water had reached Corbin it was a raging torrent. In some places within a few miles of Helena low lands were overflowed.

Charged With Child Murder.

Fort Wayne, Ind., July 11.—Investigations by the police tend to show that Little Alice Cuthrell of Huntington, for whose murder Charles Dunn, the richest and one of the oldest men in the village, is held here, was killed in Dunn's barn and hidden in a pile of sawdust until she was thrown into a cistern under his house.

Want a Michigan Professor.

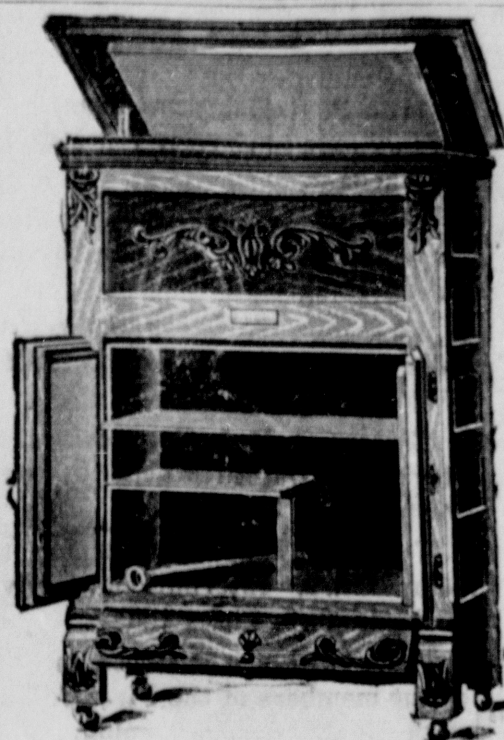

Santa Fe, N. M., July 11.—Clinton D. Smith, director of the Michigan agricultural experiment station, has been elected president of the New Mexico college of agriculture and mechanic arts, at Mesilla Park, by the board of regents. Professor Smith is an international authority on sugar beet culture.

Terrific Heat in Nebraska.

Lincoln, Neb., July 11.—There was a continuation throughout Nebraska of the terrific heat which has prevailed all this week, the maximum being 103.

Strike at Fort Worth.

Fort Worth, Tex., July 11.—A thousand men in the building trades struck here and work is practically suspended all over the city. The strike is the outcome of the refusal of the laborers' federation to accept the result of arbitration of the demand for higher wages.

THE YOUNGERS PAROLED.

Minnesota Board of Pardons Takes Definite Action.

St. Paul, July 11.—The state board of pardons has consented to the parole of James Hardin Younger and Thomas Cole Younger, under life sentences at the state penitentiary for complicity in the Northfield bank robbery in the fall of 1876.

The parole becomes operative as soon as the prison authorities have provided the men with suitable employment.

The conditions of the parole will not allow them to be employed for advertising purposes, and it is not contemplated by the board that they shall be employed in any place where they will be subjected to the gaze of the curious more than is absolutely necessary.

A number of firms in the Twin Cities and elsewhere stand ready to give the men employment, and it is up to the prison authorities to select a suitable place.

Total War Revenue Receipts.

Washington, July 11.—A statement prepared at the internal revenue department shows that the total receipts of the war revenue act only from July 13, 1898, the date the act went into effect, to May 31, 1901, amounted to \$310,653,263.

Mayor Harrison Threatened.

Chicago, July 11.—Mayor Carter H. Harrison has received a letter from Harvey, Ill., warning him to leave the city at once as there was a plan on foot to shoot him Saturday night. The authorities are now investigating the matter.

Fire Destroys a Kansas Town.

Cleburn, Kan., July 11.—Fire almost wiped out the small town of Joshua, destroying its business houses. The loss is \$40,000, with less than \$11,000 insurance. The town has no waterworks and there was no way to check the fire.

Cape Rebel Hanged.

Cape Town, July 11.—Marais, the well known Cape rebel, was hanged at Middelburg, Transvaal colony. By order of the military authorities the execution was witnessed by prominent residents of Middelburg.

Severe Fighting Reported.

London, July 11.—Severe fighting, according to a dispatch to The Daily Mail from Lourenzo Marques, has taken place between Machadodorp and Leydenburg, the Boers being defeated with at least 50 killed.

Boer Prisoners Escape.

Bermuda, July 11.—Three Boer prisoners escaped from the detention camp on Darrell's island during the night. They swam to the mainland and have not yet been captured.

San Domingo Storm Stricken.

Port au Prince, Hayti, July 11.—A French steamer which has arrived here confirms the reports that the republic of San Domingo suffered most severely from the recent storm which swept over the southern part of this island. The crops in San Domingo are damaged.

Founded the Icarian Colony.

Keokuk, Ia., July 11.—Pierre Champeau, one of the few surviving founders of the Icarian colony at Nauvoo, Ill., died here, aged 63. He was prominent in the movement which caused the emigration of the French to form socialistic communities in 1843.

WENT OVER A CLIFF.

Seventy-five Head of Cattle Stamped by a Train.

English, Ind., July 11.—A drove of more than 75 head of cattle being driven to Louisville by Frank McKinley and Tolbert Dooley were frightened and stampeded by a passing train near Riveville. The whole drove rushed over a cliff 60 feet high. The animals that were not killed outright by the fall had to be killed on account of broken limbs. The drivers sent word through the neighborhood to farmers to assist in the slaughter and quarters of prime beef were carried in every direction.

ON THE DIVIDEND.

Western League.

At Kansas City, 15; Denver, 9. At St. Joseph, 9; Colorado Springs, 6. At Des Moines, 9; St. Paul, 3. At Omaha, 7; Minneapolis, 8.

HEAT WAS TERRIFIC

CHICAGO EXPERIENCES THE HOTTEST DAY IN WEATHER BUREAU HISTORY.

102 DEGS. IN THE SHADE

Hot Wind Adds to the Suffering of the Inhabitants—Windows and Doors Were Closed to Keep Out the Air. Other Points Report Record Breaking Weather—Early Corn Crop in Kansas Considered a Failure.

Chicago, July 11.—Not since the establishment of the weather bureau has this city experienced such terrific heat as affected it during the day, 102 in the shade in the office of the weather bureau being the high record, the highest previous mark being July 16, 1887, when it reached 99.8. One hundred and two in the shade was, however, the easiest part of the day. The wind blew with force from the west and southwest, and a hotter, more stifling air was never felt in this city before. It seemed to add 20 degrees to the misery causing power of the heat. So hot did it become during the afternoon as the wind drove the hot air into the windows and doorways, that all through the business section tenants of offices slammed down their windows to keep out the air. At the theaters where matinees were in progress men were stationed at the front doors to keep them closed as much as possible. If any comfort was to be found it was by shutting out the breeze. Down on the street level in the shade the mercury was but little above that in the Auditorium tower, but in the sun and street crossings it was anywhere from 105 to 110. The air was so dry, however, that its effects were not so disastrous as would have been the case if greater humidity had prevailed. At night the wind changed to the northward, blowing off Lake Michigan, with the result that the mercury went down 20 degrees within an hour.

EARLY CORN DESTROYED.

Kansas Crop Ruined by the Heat and Drouth.

Topeka, Kan., July 11.—Kansas is just as hot and many degrees drier. The temperatures throughout the state ranged from 100 to 108. On account of the dryness of the atmosphere few prostrations were reported, but the damage to crops and fruit was widespread.

Corn has been seriously damaged, though there is yet some hope for the late product. Early corn will not yield anything. Late corn shrivels up during the day, but at night unfolds again. The farmers are cultivating it well and the weeds are entirely missing. If the rain comes within the present week Kansas will yet have a good crop of late corn.

The splendid fruit prospects of early shippers are entirely blighted. Berries and small fruits are a total loss. Apples, peach and pear trees, laden with half grown fruit, are shriveling up and drying in the fierce heat. There is widespread depression throughout the state because of the drouth, which is the worst experienced here. But Kansas farmers are better prepared to endure the consequences of a drouth now than for many years past. The wheat crop was never better and most of the farmers are out of debt.

Hottest Day This Summer.

St. Louis, July 11.—At 3 p. m. the government thermometer registered 103 in the shade, while on the streets in the sun the temperature was many degrees higher. According to the weather bureau this is the highest point reached here this summer. Within the past 24 hours eight persons, whose minds have been affected by the heat, were received at the hospital.

Missouri Corn Crop Killed.

St. Joseph, Mo., July 11.—The temperature in the heart of the city was 109, the highest point reached this summer. The corn crop in the northern part of Missouri is killed, the first time in the history of the Platte purchase. Wells and springs are going dry and the loss of live stock promises to be very heavy unless rain comes very soon.

Warmest in Twenty-eight Years.

Burlington, Ia., July 11.—The hot wave continues here with the mercury at the highest point this season, 110 in the shade. The official weather observer reported 102 by the government thermometer, the hottest official record for 28 years.

Hottest Ever Known.

Davenport, Ia., July 11.—The maximum temperature was 105 degrees. This is 3 degrees hotter than ever before recorded at the local weather office.

PRESIDENT OF IOWA COLLEGE.

Nominated for Head of the National Educational Association.

Detroit, July 11.—Two general meetings of the National Educational association, of the Indian educational department and 10 separate department meetings kept the delegates to the 40th National Educational association convention busy during the day.

The nominating committee selected the following officers who will be voted on later by the convention: President, W. M. Bradschear, president of Iowa college; treasurer, Charles H. Keyes of Hartford, Conn. Eleven vice presidents were also placed in nomination. It is considered probable that the convention will ratify these nominations.

Dined at Copenhagen.

Copenhagen, July 11.—At the dinner tendered the commanders and officers of the United States training ship Hartford and the school ship Enterprise by the crown prince and the royal family, the royal prince toasted President McKinley and the United States of America.

End of a Long Feud.

Owensboro, Ky., July 11.—David Smith, one of the most noted characters in Western Kentucky, was shot and killed by Charles Dunn. The men had a feud of long standing.

Thirteen Were Injured.

El Paso, Tex., July 11.—An explosion occurred in the engine room of the Kansas City Consolidated Smelter company, which set fire to the building, causing a loss of \$150,000. Thirteen men employed at the works were injured, one fatally.

SIXTEEN ARE KILLED

TERRIBLE RESULT OF THE COLLISION ON THE CHICAGO AND ALTON ROAD.

MANY OTHERS INJURED

Westbound Passenger Train Collides With a Fast Live Stock Train, Both Going at Full Speed—Locomotives Demolished and Piled Up in a Heap With Two of the Passenger Cars. Two Bodies Unidentified.

Kansas City, July 11.—The full horror of the train wreck on the Chicago and Alton railroad, near Norton, Mo., when a westbound passenger train collided with a fast live stock train, both going at good speed, was not realized until a train loaded with bruised and scalped people arrived here and transferred its sufferers to the hospitals. First reports of the accident indicated that four trainmen and two passengers were killed outright. Of the wounded who started for this city, four were dead before the train arrived and six passed away at the hospitals before midnight, making 16 deaths up to the present time. In St. Joseph's and University hospitals are 30 persons, at least two of whom are expected to die. The physicians will not give an opinion as to the condition of the sufferers. Most of them were scalded by the steam that issued from the locomotives, both of which were wrecked and piled up in a heap with two of the passenger cars. Identification of those of the dead who passed away without regaining consciousness was difficult, owing to the fact that clothing had been hastily stripped from the bodies in order to give relief to the tortured flesh. Two of the bodies are unidentified—one a young woman killed at the wreck and supposed to be a daughter of Mrs. R. J. Curtis of Geneseo, N. Chicago, July 11.—Mayor Carter H. Harrison has received a letter from Harvey, Ill., warning him to leave the city at once as there was a plan on foot to shoot him Saturday night. The authorities are now investigating the matter.

Fire Destroys a Kansas Town.

Cleburn, Kan., July 11.—Fire almost wiped out the small town of Joshua, destroying its business houses. The loss is \$40,000, with less than \$11,000 insurance. The town has no water-works and there was no way to check the fire.

Cape Rebel Hanged.

Cape Town, July 11.—Marais, the well known Cape rebel, was hanged at Middelburg, Transvaal colony. By order of the military authorities the execution was witnessed by prominent residents of Middelburg.

Severe Fighting Reported.

London, July 11.—Severe fighting, according to a dispatch to The Daily Mail from Lourenco Marques, has taken place between Machadodorp and Leydenburg, the Boers being defeated with at least 50 killed.

Boer Prisoners Escape.

Bermuda, July 11.—Three Boer prisoners escaped from the detention camp on Darrell's island during the night. They swam to the mainland and have not yet been captured.

San Domingo Storm Stricken.

Port au Prince, Hayti, July 11.—A French steamer which has arrived here confirms the reports that the republic of San Domingo suffered most severely from the recent storm which swept over the southern part of this island. The crops in San Domingo are damaged.

Founded the Icarian Colony.

Keokuk, Ia., July 11.—Pierre Champeau, one of the few surviving founders of the Icarian colony at Nauvoo, Ill., died here, aged 63. He was prominent in the movement which caused the emigration of the French to form socialistic communities in 1848.

WENT OVER A CLIFF.

Seventy-five Head of Cattle Stamped by a Train.

English, Ind., July 11.—A drove of more than 75 head of cattle being driven to Louisville by Frank McKinley and Tolbert Dooley were frightened and stampeded by a passing train near Riveville. The whole drove rushed over a cliff 60 feet high. The animals that were not killed outright by the fall had to be killed on account of broken limbs. The drivers sent word through the neighborhood to farmers to assist in the slaughter and quarters of prime beef were carried in every direction.

ON THE DIVIDEND.

Western League.

At Kansas City, 15; Denver, 9. At St. Joseph, 9; Colorado Springs, 6. At Des Moines, 9; St. Paul, 3. At Omaha, 7; Minneapolis, 8.

HEAT WAS TERRIFIC

CHICAGO EXPERIENCES THE HOTTEST DAY IN WEATHER BUREAU HISTORY.

102 DEGS. IN THE SHADE

Hot Wind Adds to the Suffering of the Inhabitants—Windows and Doors Were Closed to Keep Out the Air. Other Points Report Record Breaking Weather—Early Corn Crop in Kansas Considered a Failure.

Chicago, July 11.—Not since the establishment of the weather bureau has this city experienced such terrific heat as affected it during the day, 102 in the shade in the office of the weather bureau being the high record, the highest previous mark being July 16, 1887, when it reached 99.3. One hundred and two in the shade was, however, the easiest part of the day. The wind blew with force from the west and southwest, and a hotter, more stifling air was never felt in this city before. It seemed to add 20 degrees to the misery causing power of the heat. So hot did it become during the afternoon as the wind drove the hot air into the windows and doorways, that all through the business section tenants of offices slammed down their windows to keep out the air. At the theaters where matinees were in progress men were stationed at the front doors to keep them closed as much as possible. If any comfort was to be found it was by shutting out the breeze. Down on the street level in the shade the mercury was but little above that in the Auditorium tower, but in the sun and street crossings it was anywhere from 105 to 110. The air was so dry, however, that its effects were not so disastrous as would have been the case if greater humidity had prevailed. At night the wind changed to the northward, blowing off Lake Michigan, with the result that the mercury went down 20 degrees within an hour.

EARLY CORN DESTROYED.

Kansas Crop Ruined by the Heat and Drouth.

Topeka, Kan., July 11.—Kansas is just as hot and many degrees drier. The temperatures throughout the state ranged from 100 to 108. On account of the dryness of the atmosphere few prostrations were reported, but the damage to crops and fruit was widespread.

Corn has been seriously damaged, though there is yet some hope for the late product. Early corn will not yield anything. Late corn shrivels up during the day, but at night unfolds again. The farmers are cultivating it well and the weeds are entirely missing. If the rain comes within the present week Kansas will yet have a good crop of late corn.

The splendid fruit prospects of early shippers are entirely blighted. Berries and small fruits are a total loss. Apples, peach and pear trees, laden with half grown fruit, are shriveling up and drying in the fierce heat.

There is widespread depression throughout the state because of the drouth, which is the worst experienced here. But Kansas farmers are better prepared to endure the consequences of a drouth now than for many years past. The wheat crop was never better and most of the farmers are out of debt.

Hottest Day This Summer.

St. Louis, July 11.—At 3 p. m. the government thermometer registered 103 in the shade, while on the streets in the sun the temperature was many degrees higher. According to the weather bureau this is the highest point reached here this summer. Within the past 24 hours eight persons, whose minds have been affected by the heat, were received at the hospital.

Missouri Corn Crop Killed.

St. Joseph, Mo., July 11.—The temperature in the heart of the city was 109, the highest point reached this summer. The corn crop in the northern part of Missouri is killed, the first time in the history of the Platte purchase. Wells and springs are going dry and the loss of live stock promises to be very heavy unless rain comes very soon.

Warmest in Twenty-eight Years.

Burlington, Ia., July 11.—The hot wave continues here with the mercury at the highest point this season, 110 in the shade. The official weather observer reported 102 by the government thermometer, the hottest official record for 28 years.

Hottest Ever Known.

Davenport, Ia., July 11.—The maximum temperature was 105 degrees. This is 3 degrees hotter than ever before recorded at the local weather office.

PRESIDENT OF IOWA COLLEGE.

Nominated for Head of the National Educational Association.

Detroit, July 11.—Two general meetings of the National Educational association, of the Indian educational department and 10 separate department meetings kept the delegates to the 40th National Educational association convention busy during the day.

The nominating committee selected the following officers who will be voted on later by the convention:

President, W. M. Bradschear, president of Iowa college; treasurer, Charles H. Keyes of Hartford, Conn. Eleven vice presidents were also placed in nomination. It is considered probable that the convention will ratify these nominations.

Dined at Copenhagen.

Copenhagen, July 11.—At the dinner tendered the commanders and officers of the United States training ship Hartford and the school ship Enterprise by the crown prince and the royal family, the royal prince toasted President McKinley and the United States of America.

End of a Long Feud.

Owensboro, Ky., July 11.—David Smith, one of the most noted characters in Western Kentucky, was shot and killed by Charles Dunn. The men had a feud of long standing.

Thirteen Were Injured.

El Paso, Tex., July 11.—An explosion occurred in the engine room of the Kansas City Consolidated Smelter company, which set fire to the building, causing a loss of \$150,000. Thirteen men employed at the works were injured, one fatally.

SIXTEEN ARE KILLED

TERRIBLE RESULT OF THE COLLISION ON THE CHICAGO AND ALTON ROAD.

MANY OTHERS INJURED

Westbound Passenger Train Collides With a Fast Live Stock Train, Both Going at Full Speed—Locomotives Demolished and Piled Up in a Heap With Two of the Passenger Cars. Two Bodies Unidentified.

Kansas City, July 11.—The full horror of the train wreck on the Chicago and Alton railroad, near Norton, Mo., when a westbound passenger train collided with a fast live stock train, both going at good speed, was not realized until a train loaded with bruised and scalded people arrived here and transferred its sufferers to the hospitals. First reports of the accident indicated that four trainmen and two passengers were killed outright. Of the wounded who started for this city, four were dead before the train arrived and six passed away at the hospitals before midnight, making 16 deaths up to the present time. In St. Joseph's and University hospitals are 30 persons, at least two of whom are expected to die. The physicians will not give an opinion as to the condition of the sufferers. Most of them were scalded by the steam that issued from the locomotives, both of which were wrecked and piled up in a heap with two of the passenger cars. Identification of those of the dead who passed away without regaining consciousness was difficult, owing to the fact that clothing had been hastily stripped from the bodies in order to give relief to the tortured flesh. Two of the bodies are unidentified—one a young woman killed at the wreck and supposed to be a daughter of Mrs. R. J. Curtis of Geneseo, N. Y., and the other a gray haired woman, who died at St. Joseph's hospital. Ten bodies are at various undertaking establishments. The bodies of four of the dead trainmen are at Slater, Mo. The wounds of the victims are very painful, being severe scalds and burns. They are receiving the best of treatment. A man who died at St. Joseph's hospital is known to be named Jones and it is believed he is from Chicago. His clothes were destroyed.

CLOUDBURST IN MONTANA.

Crops Destroyed and Many Bridges Washed Away.

Helena, Mon., July 11.—A cloudburst occurred near Wickes, Mon., about 25 miles from Helena, doing immense damage. The Montana Central railway suffered heavily, the railway a short distance from that town being damaged for about 600 feet, bridges were washed away and the approaches destroyed, so that it will be a week before permanent repairs are made.

At Corbin, a few miles below Wickes, the concentrator of the Helena and Livingston Smelter and Refining company was damaged to the extent of several thousand dollars. The business portion of that town was flooded and stocks of merchandise of all kinds ruined.

About seven miles below Corbin the farms of a number of ranchmen were overflowed and crops destroyed. Country roads and bridges for about eight miles were damaged and washed out. There were no fatalities. By the time the wall of water had reached Corbin it was a raging torrent. In some places within a few miles of Helena low lands were overflowed.

Charged With Child Murder.

Fort Wayne, Ind., July 11.—Investigations by the police tend to show that little Alice Cothrell of Huntertown, for whose murder Charles Dunn, the richest and one of the oldest men in the village, is held here, was killed in Dunn's barn and hidden in a pile of sawdust until she was thrown into a cistern under his house.

Want a Michigan Professor.

Santa Fe, N. M., July 11.—Clinton D. Smith, director of the Michigan agricultural experiment station, has been elected president of the New Mexico college of agriculture and mechanic arts, at Mesilla Park, by the board of regents. Professor Smith is an international authority on sugar beet culture.

Terrific Heat in Nebraska.

Lincoln, Neb., July 11.—There was a continuation throughout Nebraska of the terrific heat which has prevailed all this week, the maximum being 103.

Strike at Fort Worth.

Fort Worth, Tex., July 11.—A thousand men in the building trades struck here and work is practically suspended all over the city. The strike is the outcome of the refusal of the laborers' federation to accept the result of arbitration of the demand for higher wages.

THE YOUNGERS PAROLED.

Minnesota Board of Pardons Takes Definite Action.

St. Paul, July 11.—The state board of pardons has consented to the parole of James Hardin Younger and Thomas Cole Younger, under life sentences at the state penitentiary for complicity in the Northfield bank robbery in the fall of 1876.

The parole becomes operative as soon as the prison authorities have provided the men with suitable employment.

The conditions of the parole will not allow them to be employed for advertising purposes, and it is not contemplated by the board that they shall be employed in any place where they will be subjected to the gaze of the curious more than is absolutely necessary.

A number of firms in the Twin Cities and elsewhere stand ready to give the men employment, and it is up to the prison authorities to select a suitable place.

Total War Revenue Receipts.

Washington, July 11.—A statement prepared at the internal revenue department shows that the total receipts of the war revenue act only from July 13, 1898, the date the act went into effect, to May 31, 1901, amounted to \$310,953,363.

Mayor Harrison Threatened.

Chicago, July 11.—Mayor Carter H. Harrison has received a letter from Harvey, Ill., warning him to leave the city at once as there was a plan on foot to shoot him Saturday night. The authorities are now investigating the matter.

Fire Destroys a Kansas Town.

Cleburn, Kan., July 11.—Fire almost wiped out the small town of Joshua, destroying its business houses. The loss is \$40,000, with less than \$11,000 insurance. The town has no water-works and there was no way to check the fire.

Cape Rebel Hanged.

Cape Town, July 11.—Marais, the well known Cape rebel, was hanged at Middelburg, Transvaal colony. By order of the military authorities the execution was witnessed by prominent residents of Middelburg.

Severe Fighting Reported.

London, July 11.—Severe fighting, according to a dispatch to The Daily Mail from Lourenco Marques, has taken place between Machadodorp and Leydenburg, the Boers being defeated with at least 50 killed.

Boer Prisoners Escape.

Bermuda, July 11.—Three Boer prisoners escaped from the detention camp on Darrell's Island during the night. They swam to the mainland and have not yet been captured.

San Domingo Storm Stricken.

Port au Prince, Hayti, July 11.—A French steamer which has arrived here confirms the reports that the republic of San Domingo suffered most severely from the recent storm which swept over the southern part of this island. The crops in San Domingo are damaged.

Founded the Icarian Colony.

Keokuk, Ia., July 11.—Pierre Champeau, one of the few surviving founders of the Icarian colony at Nauvoo, Ill., died here, aged 63. He was prominent in the movement which caused the emigration of the French to form socialistic communities in 1848.

WENT OVER A CLIFF.

Seventy-five Head of Cattle Stamped by a Train.

English, Ind., July 11.—A drove of more than 75 head of cattle being driven to Louisville by Frank McKinley and Tolbert Dooley were frightened and stampeded by a passing train near Riverville. The whole drove rushed over a cliff 60 feet high. The animals that were not killed outright by the fall had to be killed on account of broken limbs. The drivers sent word through the neighborhood to farmers to assist in the slaughter and quarters of prime beef were carried in every direction.

THURSDAY, JULY 11, 1901.
Weather.
Partly cloudy tonight and Friday with possible thunder showers in north portion. Warmer in west portion tonight.

The weather cleared long enough at the head of the lakes Tuesday for the Duluthians to burn their fireworks intended for use on the Fourth.

Now for the county fair, it should and can be made a hummer and every resident of the city and county should put his shoulder to the wheel and give it a boost. A good agricultural display is one of the best advertisements imaginable, and Crow Wing county can furnish a dandy this year.

The Youngers have been paroled after spending a quarter of a century behind the prison walls at Stillwater. The act is humane to say the least, and while a majority of the people of the state endorse the action of the board, there are many who think that the sentence was just and should have stood.

DULUTH and St. Louis county are out to capture the state auditorship at the next republican convention and are this early called upon to deny any suggestions as to the possibility of Sam Iverson landing the same as made by Tams Bixby a few days ago. Duluth is liable to have all kinds of trouble during the next twelve or fourteen months and then discover that Bob. Dunn has been renominated in spite of himself.

An expert grain man, E. J. Murphy, who has just finished a tour of inspection and investigation through Minnesota and the Dakotas, makes the following prediction:

"The wheat crop in the United States for 1901 will aggregate 800,000,000 bushels. Of this, the winter wheat crop will comprise 450,000,000 bushels and the spring wheat crop 350,000,000 bushels. I do not think that either the Chicago or Minneapolis market will go below 60 cents a bushel to remain there."

CURBSTONE CHAT.

J. L. Wieber: Glad to get back among old friends. Brainerd is all right.

A. E. Losey: Don't forget to mention that there will be a business meeting of the members of the First Congregational church this evening. All are requested to be present.

D. Mahoney: I was surprised, very much surprised on the Fourth of July to see but few flags out on the street. I looked up and down the street but could not see a flag. I had mine out you bet.

C. A. Walker: You might state that owing to the change in operators at the telephone exchange it will be necessary for patrons to call up by number instead of using the name of parties wanted, as has been in vogue heretofore.

AMUSEMENTS.

Santailli was greeted by a very good audience last night at Gardner hall, and so great has been his success for the three nights last past that he has decided to remain the balance of the week. His work last night was greatly appreciated and he had every one in the house ready to fall off their chairs before the entertainment was over. He had the baby act on last night and this brought down the house. He dressed one of his best subjects up as a nurse, with the usual cap and apron. The feature last night was the awakening of the subject who had been asleep in the D. M. Clark furniture store window for fifty hours. This was done successfully and all wondered at the marvelous work of the great hypnotist.

Taken Up.
Came to my premises at 524, 4th street north, a dark bay gelding, about 16 hands high, with halter on. Owner can secure property by paying costs. W. M. BLOWERS.

LOCAL NEWS NOTES.

J. W. Rice, of Aitkin, was a guest in the city yesterday afternoon.

Mrs. P. J. Vanstrum and children have arrived in the city from Morris.

General Manager Gemmell returned this noon from the Twin Cities.

The S. G. S. club was entertained last evening at the Arlington hotel and after the social session a very palatable luncheon was served.

Hagen Anderson, well known in this city, has gone to his old home in Norway. Gust Johnson has also gone to visit relatives in Sweden.

Mrs. S. E. Smith returned to her home in St. Paul this noon, after an extended visit in the city with Mrs. H. C. Smith and Mrs. Frank Britton.

Several gentlemen in the city are talking of getting the boys together to organize a band and a meeting is to be called in a few days for that purpose.

O. S. Hendrickson has commenced the construction of a fine brick residence at the corner of 9th and Norwood streets, and expects to have it ready for occupancy by September 1.

Miss Deva Barker who spent a day in the city the guest of Attorney and Mrs. E. W. Crane on her way from Bemidji to her home in Minneapolis, left on the noon train for the east.

Roy Kenyon, who was employed at the N. P. shops for a long time, will leave in a few days for Fargo, from there he will go to Erie, N. D., where he will run an elevator this fall.

Mrs. M. J. Euright left for her home in Willmar today, after an extended visit with her parents, Mr. and Mrs. Charles O'Connors. Miss Lizzie O'Connors accompanied her to Willmar for a visit.

J. L. Wieber arrived in the city this morning from Wadena to accept a position in L. M. Koop's emporium. He was formerly a resident of the city and his many old friends are delighted to see him back again.

Mrs. Geo. Putts went to Wahpeton N. D. last night to visit friends.

The board of equalization has been in session most of the day and several have called to register kicks.

Mrs. Roberts, who was arrested on complaint of Poundmaster Barney, charged with interfering with an officer, was discharged last evening.

Mrs. J. C. Jamieson and son left this noon for Oswego, N. Y., where she will visit for some time. She will visit other points of interest before returning home and will take in the Pan-American Exposition at Buffalo.

Yesterday nine men were brought to the N. P. Sanitarium all in one bunch. They had been injured or burned in a fire in a section house at Forsyth, Mont. The men are not injured badly but are in need of medical care for a time.

Miss Nellie Merritt has returned from New Haven, Conn., where she visited for sometime after school closed. Miss Minnie Merritt, who teaches school at New Haven, returned to Brainerd with her sister for a visit.

Rev. W. F. Trussell, of Champlin, Minn., will conduct services at the Congregational church next Sunday both morning and evening. The subject of the morning service will be: "Finding the Man." Evening: "One's Self—Friend or Foe." All are invited to attend these services.

Peter Cardel and Jack Bourgeois, the two tonsorial artists at the First National Bank barber shop, returned yesterday afternoon from Long lake where they had a couple of days outing. They got some good catches of fish until about 3:30 o'clock of the last day when the credentials played out.

She Leads the World.

A very attractive folder has been issued by the aid of the state dairy and food department which gives some good figures which are of interest to all Minnesotans. Among other facts it is shown that the state has 582 creameries, producing annually 44,067,933 pounds of the best butter in the world. The patrons are annually paid \$6,959,914, and the value of the product, at even as low a rate as 15 cents a pound, gives the enormous total of \$11,250,000. The total value of butter manufactured by farmers is estimated at \$2,400,000 annually, making a yearly grand total \$13,650,000. To make the creamery product alone, milk is taken from 330,512 cows.

Other information concerns the cheese industry of Minnesota, the excellence of the pasturage the state affords and other factors that make good butter. Striking statistics show that the farmers engaged in dairying are fast becoming rich. An excellent "dairy map," on which each creamery and cheese factory is indicated by a small black circle, accompanies the information.

\$13.00 To Buffalo And Return \$13.00 via the Nickel Plate Road from Chicago, for the Pan-American Exposition. Tickets on sale daily good leaving Buffalo up to midnight of tenth day from and including date of sale. Also tickets on sale daily Chicago to Buffalo and return at \$13.00 for the round trip, with 15 day limit, including date of sale. \$21.00 Chicago to Buffalo and return good for 30 days.

Tickets Chicago to New York and return at special reduced rates. Write John Y. Calahan, General Agent, 111 Adams St., Chicago, for full particulars and folder showing time of trains, etc.

Playing Tom Tiddler's Ground.

Make a division across the playground and select one to be Tom Tiddler.

The rest of the players then advance, one at a time, from one division to the other, where Tom Tiddler stands, saying aloud:

"Here we are on Tom Tiddler's ground, picking up gold and silver!" While they stoop, as if picking up something, Tom Tiddler has to run and catch as many as he can, taking care not to overstep the division, as the others can then catch him.

The first one caught has to become Tom Tiddler, and the original Tom can join the others.

Feathered Strangers in Parks.

No doubt very few of our readers know that there are more than 200 different kinds of birds in the parks in and near New York city, not in cages, either, but flying about just as freely as if they were a hundred miles from any living person. It is a very pleasant pastime to try to remember the notes of the different kinds of wild birds you may hear singing or chirping in the parks. The robin and the sparrow are the most familiar, of course, but there are many others just as interesting and quite as tame.

AFTER COUNTY COMMISSIONERS.

Grand Jury Throws out a Gentle Reminder in Their Final Report.

THE JURY IS DISCHARGED.
Case of Mrs. Grant Against the City of Brainerd Taken up This Afternoon.

The jury in the case of F. W. Bonness & Co. vs. E. G. Hartew, returned a verdict for the plaintiffs this morning. The jury agreed last evening but the court was not present and instructed that the verdict be sealed and returned this morning to the court. There was no amount fixed in the verdict but the property in controversy, which is a logging outfit, is given the plaintiffs.

All the prisoners against whom indictments had been returned by the grand jury were arraigned this morning. They all plead not guilty and those who could not afford to employ an attorney were given one by the court. E. W. Crane will appear for James Knapp; W. H. Crowell will appear for Edward Brown and R. D. Pleman; and J. H. Warner will appear for Justen and Mary Stodderd and John Murphy.

The grand jury completed its labors yesterday afternoon and the members were discharged by Judge McClenahan. He thanked the members for the very prompt manner in which they transacted business and complimented them highly.

Elias Eliassen, the gentleman from Garrison, who was arrested on complaint of A. Moberg, of this city, charging him with stealing a large number of logs near Garrison and who was held to the grand jury, was discharged, the matter having been satisfactorily settled between the two gentlemen.

The following is the report of the grand jury:

"We, the grand jury for the July general term of the district court of Crow Wing county respectfully report that we have attended to all matters brought before us; that we have examined the county and city jail and county buildings and find the same kept in a neat and clean condition.

We find that the county jail is inadequate for the number of prisoners usually confined therein and would respectfully urge that the proper officers of the county take immediate steps for the proper enlargement of the same. We also find that there is not sufficient bedding in said county jail to furnish the prisoners with proper beds. We would recommend that a bath tub be placed in said jail for the use of prisoners confined therein. We further recommend that the jail floor be repaired and placed in such condition that the same may be kept cleaned, and that window screens be placed upon the windows of said jail.

We are informed and believe that the recommendations heretofore made by grand juries of this county have been ignored by the county commissioners of the county, and we would especially urge that the recommendations herein made be acted upon without necessary delay."

The case of E. W. Hartew vs. F. W. Bonness & Co., went to the jury shortly before noon.

This afternoon the case of Candice E. Grant, vs. the City of Brainerd was taken up. This is a damage suit in which Mrs. Grant seeks to recover from the city \$5,000. She claims to have been injured to this extent a year ago last Fourth of July. She, with other members of the family, were crossing the road bridge over the Mississippi and the horses became frightened and backed the buggy over the embankment. She was laid up for some time. W. A. Fleming appears for the plaintiff and W. H. Crowell is looking after the city's interest.

Excursion Rates Via "The Milwaukee."

Chicago—July 23, 24, 25. Baptist Young People's Union of America \$13.50 round trip.

One Week.....Ten Cents
One Month.....Forty Cents
One Year.....Four Dollars

THURSDAY, JULY 11, 1901.

Weather.

Partly cloudy tonight and Friday with possible thunder showers in north portion. Warmer in west portion tonight.

The weather cleared long enough at the head of the lakes Tuesday for the Duluthians to burn their fireworks intended for use on the Fourth.

Now for the county fair, it should and can be a hummer and every resident of the city and county should put his shoulder to the wheel and give it a boost. A good agricultural display is one of the best advertisements imaginable, and Crow Wing county can furnish a dandy this year.

The Youngers have been paroled after spending a quarter of a century behind the prison walls at Stillwater. The act is humane to say the least, and while a majority of the people of the state endorse the action of the board, there are many who think that the sentence was just and should have stood.

DULUTH and St. Louis county are out to capture the state auditorship at the next republican convention and are this early called upon to deny any suggestions as to the possibility of Sam Iverson landing the same as made by Tams Bixby a few days ago. Duluth is liable to have all kinds of trouble during the next twelve or fourteen months and then discover that Bob. Dunn has been renominated in spite of himself.

An expert grain man, E. J. Murphy, who has just finished a tour of inspection and investigation through Minnesota and the Dakotas, makes the following prediction:

"The wheat crop in the United States for 1901 will aggregate 800,000,000 bushels. Of this, the winter wheat crop will comprise 450,000,000 bushels and the spring wheat crop 350,000,000 bushels. I do not think that either the Chicago or Minneapolis market will go below 60 cents a bushel to remain there."

CURBSTONE CHAT.

J. L. Wieber: Glad to get back among old friends. Brainerd is all right.

A. E. Losey: Don't forget to mention that there will be a business meeting of the members of the First Congregational church this evening. All are requested to be present.

D. Mahoney: I was surprised, very much surprised on the Fourth of July to see but few flags out on the street. I looked up and down the street but could not see a flag. I had mine out you bet.

C. A. Walker: You might state that owing to the change in operators at the telephone exchange it will be necessary for patrons to call up by number instead of using the name of parties wanted, as has been in vogue heretofore.

AMUSEMENTS.

Santailli was greeted by a very good audience last night at Gardner hall, and so great has been his success for the three nights last past that he has decided to remain the balance of the week. His work last night was greatly appreciated and he had every one in the house ready to fall off their chairs before the entertainment was over. He had the baby act on last night and this brought down the house. He dressed one of his best subjects up as a nurse, with the usual cap and apron. The feature last night was the awakening of the subject who had been asleep in the D. M. Clark furniture store window for fifty hours. This was done successfully and all wondered at the marvelous work of the great hypnotist.

Taken Up.

Came to my premises at 524, 4th street north, a dark bay gelding, about 16 hands high, with halter on. Owner can secure property by paying costs. W. M. Blowers.

LOCAL NEWS NOTES.

J. W. Rice, of Aitkin, was a guest in the city yesterday afternoon.

Mrs. P. J. Vanstrum and children have arrived in the city from Morris. General Manager Gemmell returned this noon from the Twin Cities.

Mrs. P. R. Haley and daughter, of Duluth, are in the city visiting Mrs. McClelland.

Capt. A. W. Mercer, acting Indian agent, of Walker, was in the city last evening.

Mrs. John W. Nelson, of Brandon, Man., is in the city visiting with Mrs. J. Fitzgerald.

Cashier G. D. LaBar returned today from Duluth where he went yesterday on business.

The elegant new coach for the Minnesota & International arrived from the Twin Cities today.

There will be a business meeting of the members of the First Congregational church this evening.

Rev. R. N. Adams, D. D., of St. Paul, passed through the city today enroute to his home from Bemidji.

The men have started to work on the excavation for the new Chas. Swenson building on Laurel street.

Miss Julia Thomsen left this noon for her home in St. Paul, after spending four weeks with friends in this city.

Miss Stella Way left today for St. Paul on a visit. She will be the guest of Mrs. S. E. Smith, of that city.

A. J. Sundusky, who has been visiting Mrs. M. Stowl, of Pillager, returned to his home in Minneapolis today.

Superintendent Brown, of the Superior division of the Northern Pacific, was a guest in the city last evening.

George Nevers has accepted a position in the office of General Manager W. H. Gemmell, of the Minnesota & International.

The water in the Mississippi is higher at present than for years and at the pump house they are having some little trouble.

Mrs. Henry Peterson and her sister, Maybel Ekeroth, of Minneapolis are in the city visiting with Mr. and Mrs. J. W. Anderson.

Lyman Batcheller, who has been in the city visiting his brother, Dr. O. T. Batcheller, returned yesterday to his home in Madelia.

John Hommes passed through the city today enroute from St. Cloud to Superior where his brother Edward Hommes is dying.

Mrs. William Lamb left today for her home in St. Paul after an extended visit in the city, the guest of Mr. and Mrs. Charles Dowling.

The S. G. S. club was entertained last evening at the Arlington hotel and after the social session a very palatable luncheon was served.

Hagen Anderson, well known in this city, has gone to his old home in Norway. Gust Johnson has also gone to visit relatives in Sweden.

Mrs. S. E. Smith returned to her home in St. Paul this noon, after an extended visit in the city with Mrs. H. C. Smith and Mrs. Frank Britton.

Several gentlemen in the city are talking of getting the boys together to organize a band and a meeting is to be called in a few days for that purpose.

O. S. Hendrickson has commenced the construction of a fine brick residence at the corner of 9th and Norwood streets, and expects to have it ready for occupancy by September 1.

Miss Deva Barker who spent a day in the city the guest of Attorney and Mrs. E. W. Crane on her way from Bemidji to her home in Minneapolis, left on the noon train for the east.

Roy Kenyon, who was employed at the N. P. shops for a long time, will leave in a few days for Fargo, from there he will go to Erie, N. D., where he will run an elevator this fall.

Mrs. M. J. Earlight left for her home in Willmar today, after an extended visit with her parents, Mr. and Mrs. Charles O'Connors. Miss Lizzie O'Connors accompanied her to Willmar for a visit.

J. L. Wieber arrived in the city this morning from Wadena to accept a position in L. M. Koop's emporium. He was formerly a resident of the city and his many old friends are delighted to see him back again.

Mrs. Geo. Putts went to Wahpeton N. D., last night to visit friends.

The board of equalization has been in session most of the day and several have called to register kicks. Mrs. Roberts, who was arrested on complaint of Poundmaster Barney, charged with interfering with an officer, was discharged last evening.

Mrs. J. C. Jamieson and son left this noon for Oswego, N. Y., where she will visit for some time. She will visit other points of interest before returning home and will take in the Pan-American Exposition at Buffalo.

Yesterday nine men were brought to the N. P. Sanitarium all in one bunch. They had been injured or burned in a fire in a section house at Forsyth, Mont. The men are not injured badly but are in need of medical care for a time.

Miss Nellie Merritt has returned from New Haven, Conn., where she visited for sometime after school closed. Miss Minnie Merritt, who teaches school at New Haven, returned to Brainerd with her sister for a visit.

Rev. W. F. Trussell, of Champlin, Minn., will conduct services at the Congregational church next Sunday both morning and evening. The subject of the morning service will be "Finding the Man." Evening: "One's Self—Friend or Foe." All are invited to attend these services.

Peter Cardel and Jack Bourgeois, the two tonsorial artists at the First National Bank barber shop, returned yesterday afternoon from Long lake where they had a couple of days outing. They got some good catches of fish until about 3:30 o'clock of the last day when the credentials played out.

She Leads the World.

A very attractive folder has been issued by the aid of the state dairy and food department which gives some good figures which are of interest to all Minnesotans. Among other facts it is shown that the state has 582 creameries, producing annually 44,007,933 pounds of the best butter in the world. The patrons are annually paid \$6,959,914, and the value of the product, at even as low a rate as 15 cents a pound, gives the enormous total of \$11,250,000. THURSDAY, JULY 11, 1901.

Weather.

Partly cloudy tonight and Friday with possible thunder showers in north portion. Warmer in west portion tonight.

The weather cleared long enough at the head of the lakes Tuesday for the Duluthians to burn their fireworks intended for use on the Fourth.

Now for the county fair, it should and can be made a hummer and every resident of the city and county should put his shoulder to the wheel and give it a boost. A good agricultural display is one of the best advertisements imaginable, and Crow Wing county can furnish a dandy this year.

The Youngers have been paroled after spending a quarter of a century behind the prison walls at Stillwater. The act is humane to say the least, and while a majority of the people of the state endorse the action of the board, there are many who think that the sentence was just and should have stood.

DULUTH and St. Louis county are out to capture the state auditorship at the next republican convention and are this early called upon to deny any suggestions as to the possibility of Sam Iverson landing the same as made by Tams Bixby a few days ago. Duluth is liable to have all kinds of trouble during the next twelve or fourteen months and then discover that Bob. Dunn has been renominated in spite of himself.

An expert grain man, E. J. Murphy, who has just finished a tour of inspection and investigation through Minnesota and the Dakotas, makes the following prediction:

"The wheat crop in the United States for 1901 will aggregate 800,000,000 bushels. Of this, the winter wheat crop will comprise 450,000,000 bushels and the spring wheat crop 350,000,000 bushels. I do not think that either the Chicago or Minneapolis market will go below 60 cents a bushel to remain there."

CURBSTONE CHAT.

J. L. Wieber: Glad to get back among old friends. Brainerd is all right.

A. E. Losey: Don't forget to mention that there will be a business meeting of the members of the First Congregational church this evening. All are requested to be present.

D. Mahoney: I was surprised, very much surprised on the Fourth of July to see but few flags out on the street. I looked up and down the street but could not see a flag. I had mine out you bet.

C. A. Walker: You might state that owing to the change in operators at the telephone exchange it will be necessary for patrons to call up by number instead of using the name of parties wanted, as has been in vogue heretofore.

AMUSEMENTS.

Santanilli was greeted by a very good audience last night at Gardner hall, and so great has been his success for the three nights last past that he has decided to remain the balance of the week. His work last night was greatly appreciated and he had every one in the house ready to fall off their chairs before the entertainment was over. He had the baby act on last night and this brought down the house. He dressed one of his best subjects up as a nurse, with the usual cap and apron. The feature last night was the awakening of the subject who had been asleep in the D. M. Clark furniture store window for fifty hours. This was done successfully and all wondered at the marvelous work of the great hypnotist.

Taken Up.

Came to my premises at 524, 4th street north, a dark bay gelding, about 16 hands high, with halter on. Owner can secure property by paying costs. W. M. BLOWERS.

LOCAL NEWS NOTES.

J. W. Rice, of Aitkin, was a guest in the city yesterday afternoon.

Mrs. P. J. Vanstrum and children have arrived in the city from Morris.

General Manager Gemmell returned this noon from the Twin Cities.

Mrs. P. R. Haley and daughter, of Duluth, are in the city visiting Mrs. McClelland.

Capt. A. W. Mercer, acting Indian agent, of Walker, was in the city last evening.

Mrs. John W. Nelson, of Brandon, Man., is in the city visiting with Mrs. J. Fitzgerald.

Cashier G. D. LaBar returned today from Duluth where he went yesterday on business.

The elegant new coach for the Minnesota & International arrived from the Twin Cities today.

There will be a business meeting of the members of the First Congregational church this evening.

Rev. R. N. Adams, D. D., of St. Paul, passed through the city today enroute to his home from Bemidji.

The men have started to work on the excavation for the new Chas. Swenson building on Laurel street.

Miss Julia Thomsen left this noon for her home in St. Paul, after spending four weeks with friends in this city.

Miss Stella Way left today for St. Paul on a visit. She will be the guest of Mrs. S. E. Smith, of that city.

A. J. Sundusky, who has been visiting Mrs. M. Stowl, of Pillager, returned to his home in Minneapolis today.

Superintendent Brown, of the Superior division of the Northern Pacific, was a guest in the city last evening.

George Nevers has accepted a position in the office of General Manager W. H. Gemmell, of the Minnesota & International.

The water in the Mississippi is higher at present than for years and at the pump house they are having some little trouble.

Mrs. Henry Peterson and her sister, Maybel Ekeroth, of Minneapolis are in the city visiting with Mr. and Mrs. J. W. Anderson.

Lyman Batcheller, who has been in the city visiting his brother, Dr. O. T. Batcheller, returned yesterday to his home in Madelia.

John Hommes passed through the city today enroute from St. Cloud to Superior where his brother Edward Hommes is dying.

Mrs. William Lamb left today for her home in St. Paul after an extended visit in the city, the guest of Mr. and Mrs. Charles Dowling.

The S. G. S. club was entertained last evening at the Arlington hotel and after the social session a very palatable luncheon was served.

Hagen Anderson, well known in this city, has gone to his old home in Norway. Gust Johnson has also gone to visit relatives in Sweden.

Mrs. S. E. Smith returned to her home in St. Paul this noon, after an extended visit in the city with Mrs. H. C. Smith and Mrs. Frank Britton.

Several gentlemen in the city are talking of getting the boys together to organize a band and a meeting is to be called in a few days for that purpose.

O. S. Hendrickson has commenced the construction of a fine brick residence at the corner of 9th and Northwood streets, and expects to have it ready for occupancy by September 1.

Miss Deva Barker who spent a day in the city the guest of Attorney and Mrs. E. W. Crane on her way from Bemidji to her home in Minneapolis, left on the noon train for the east.

Roy Kenyon, who was employed at the N. P. shops for a long time, will leave in a few days for Fargo, from there he will go to Erie, N. D., where he will run an elevator this fall.

Mrs. M. J. Enright left for her home in Willmar today, after an extended visit with her parents, Mr. and Mrs. Charles O'Connors. Miss Lizzie O'Connors accompanied her to Willmar for a visit.

J. L. Wieber arrived in the city this morning from Wadena to accept a position in L. M. Koop's emporium. He was formerly a resident of the city and his many old friends are delighted to see him back again.

Mrs. Geo. Putts went to Wahpeton N. D., last night to visit friends.

The board of equalization has been in session most of the day and several have called to register kicks.

Mrs. Roberts, who was arrested on complaint of Poundmaster Barney, charged with interfering with an officer, was discharged last evening.

Mrs. J. C. Jamieson and son left this noon for Oswego, N. Y., where she will visit for some time. She will visit other points of interest before returning home and will take in the Pan-American Exposition at Buffalo.

Yesterday nine men were brought to the N. P. Sanitarium all in one bunch. They had been injured or burned in a fire in a section house at Forsyth, Mont. The men are not injured badly but are in need of medical care for a time.

Miss Nellie Merritt has returned from New Haven, Conn., where she visited for sometime after school closed. Miss Minnie Merritt, who teaches school at New Haven, returned to Brainerd with her sister for a visit.

Rev. W. F. Trussell, of Champlin, Minn., will conduct services at the Congregational church next Sunday both morning and evening. The subject of the morning service will be: "Finding the Man." Evening: "One's Self—Friend or Foe." All are invited to attend these services.

Peter Cardel and Jack Bourgeois, the two tonsorial artists at the First National Bank barber shop, returned yesterday afternoon from Long lake where they had a couple of days outing. They got some good catches of fish until about 3:30 o'clock of the last day when the credentials played out.

She Leads the World.

A very attractive folder has been issued by the aid of the state dairy and food department which gives some good figures which are of interest to all Minnesotans. Among other facts it is shown that the state has 582 creameries, producing annually 44,007,933 pounds of the best butter in the world. The patrons are annually paid \$6,959,914, and the value of the product, at even as low a rate as 15 cents a pound, gives the enormous total of \$11,250,000. The total value of butter manufactured by farmers is estimated at \$2,400,000 annually, making a yearly grand total \$13,650,000. To make the creamery product alone, milk is taken from 330,512 cows.

Other information concerns the cheese industry of Minnesota, the excellence of the pasturage the state affords and other factors that make good butter. Striking statistics show that the farmers engaged in dairying are fast becoming rich. An excellent "dairy map," on which each creamery and cheese factory is indicated by a small black circle, accompanies the information.

\$13.00 To Buffalo And Return \$13.00 via the Nickel Plate Road from Chicago, for the Pan-American Exposition. Tickets on sale daily good leaving Buffalo up to midnight of tenth day from and including date of sale. Also tickets on sale daily Chicago to Buffalo and return at \$13.00 for the round trip, with 15 day limit, including date of sale. \$21.00 Chicago to Buffalo and return good for 30 days. Tickets Chicago to New York and return at special reduced rates. Write John Y. Calahan, General Agent, 111 Adams St., Chicago, for full particulars and folder showing time of trains, etc.

Playing Tom Tiddler's Ground.

Make a division across the playground and select one to be Tom Tiddler.

The rest of the players then advance, one at a time, from one division to the other, where Tom Tiddler stands, saying aloud:

"Here we are on Tom Tiddler's ground, picking up gold and silver!" While they stoop, as if picking up something, Tom Tiddler has to run and catch as many as he can, taking care not to overstep the division, as the others can then catch him.

The first one caught has to become Tom Tiddler, and the original Tom can join the others.

Feathered Strangers in Parks.

No doubt very few of our readers know that there are more than 200 different kinds of birds in the parks in and near New York city, not in cages, either, but flying about just as freely as if they were a hundred miles from any living person. It is a very pleasant pastime to try to remember the notes of the different kinds of wild birds you may hear singing or chirping in the parks. The robin and the sparrow are the most familiar, of course, but there are many others just as interesting and quite as tame.

AFTER COUNTY COMMISSIONERS.

Grand Jury Throws out a Gentle Reminder in Their Final Report.

THE JURY IS DISCHARGED.

Case of Mrs. Grant Against the City of Brainerd Taken up This Afternoon.

The jury in the case of F. W. Bonness & Co., vs. E. G. Hartew, returned a verdict for the plaintiffs this morning. The jury agreed last evening but the court was not present and instructed that the verdict be sealed and returned this morning to the court. There was no amount fixed in the verdict but the property in controversy, which is a logging outfit, is given the plaintiffs.

All the prisoners against whom indictments had been returned by the grand jury were arraigned this morning. They all plead not guilty and those who could not afford to employ an attorney were given one by the court. E. W. Crane will appear for James Knapp; W. H. Crowell will appear for Edward Brown and R. D. Pleman; and J. H. Warner will appear for Justen and Mary Stodder and John Murphy.

The grand jury completed its labors yesterday afternoon and the members were discharged by Judge McClenahan. He thanked the members for the very prompt manner in which they transacted business and complimented them highly.

Elias Eliassen, the gentleman from Garrison, who was arrested on complaint of A. Moberg, of this city, charging him with stealing a large number of logs near Garrison and who was held to the grand jury, was discharged, the matter having been satisfactorily settled between the two gentlemen.

The following is the report of the grand jury:

"We, the grand jury for the July general term of the district court of Crow Wing county respectfully report that we have attended to all matters brought before us; that we have examined the county and city jail and county buildings and find the same kept in a neat and clean condition.

We find that the county jail is inadequate for the number of prisoners usually confined therein and would respectfully urge that the proper officers of the county take immediate steps for the proper enlargement of the same. We also find that there is not sufficient bedding in said county jail to furnish the prisoners with proper beds. We would recommend that a bath tub be placed in said jail for the use of prisoners confined therein. We further recommend that the jail floor be repaired and placed in such condition that the same may be kept cleaned, and that window screens be placed upon the windows of said jail.

We are informed and believe that the recommendations heretofore made by grand juries of this county have been ignored by the county commissioners of the county, and we would especially urge that the recommendations herein made be acted upon without necessary delay."

The case of E. W. Hartew vs. F. W. Bonness & Co., went to the jury shortly before noon.

This afternoon the case of Candice E. Grant, vs. the City of Brainerd was taken up. This is a damage suit in which Mrs. Grant seeks to recover from the city \$5,000. She claims to have been injured to this extent a year ago last Fourth of July. She, with other members of the family, were crossing the road bridge over the Mississippi and the horses became frightened and backed the buggy over the embankment. She was laid up for some time. W. A. Fleming appears for the plaintiff and W. H. Crowell is looking after the city's interest.

Excursion Rates Via "The Milwaukee."

Chicago—July 23, 24, 25, Baptist Young People's Union of America \$13.50 round trip.
Louisville—August 24, 25, 26, Triennial Conclave Knights Templar, \$21.50 round trip.

Buffalo—All summer, Pan American Exposition, \$24.50 round trip. All tickets good on celebrated Pioneer Limited. Call at Milwaukee office, or write J. T. Conley, Ass't Gen. Pass. Agent, St. Paul, for detailed information. Ask for Pan-American folder.

D. M. Clark & Co. are agents for the New England Queen sewing machine. Small payments.

Our job department is complete and we aim to turn out nothing but up-to-date work. If you are in need of anything in the job printing line call up the DISPATCH. Prices right.

GRAND REMOVAL SALE.

Mrs. J. K. Pearce is about to move to her new location on Laurel Street, and her mammoth stock of Millinery goods is to be turned over to the public for inspection. The goods will be placed on sale at cost and those who intend to do some buying in this line should investigate at once. The assortment is the best in the city and the most fastidious can be suited.

Mrs. J. K. Pearce

OLE'S QUEER
PREDICAMENT.

Sheriff Erickson Allowed a United
State Prisoner His
Liberty.

MUST APPEAR BEFORE COURT.

Order to Show Cause Made Re-
turnable in St. Paul Tomor-
row Morning.

There is a strong probability that Sheriff Ole Erickson of this city will have to serve a sentence in his own jail in this city unless he is able to satisfy Judge Amidon, of the United States court at St. Paul that he acted in good faith when he allowed one of his prisoners, sentenced to serve ninety days in jail by Judge Amidon, his liberty.

George W. Wolfe, of Motley, had been convicted in the United States court of cutting timber off government land and was fined \$1000 and sentenced to serve a ninety day sentence in the county jail of Crow Wing county. Wolfe is very popular in this and adjoining counties and it is claimed that his friends have done everything possible to secure his release even going so far as inducing Sheriff Erickson to let the prisoner walk about the city and have his liberty.

It is claimed by Wolfe, and it is pretty generally understood, that he had no connection with the crime at all, but that he took the sentence allowing others who were really the instigators in the crime to keep out of the clutches of the law. At one time a petition was gotten up addressed to the president of the United States praying for Wolfe's release, but these were recalled as it was not thought that they would be necessary as new developments were presenting themselves which would entirely vindicate Mr. Wolfe.

The fact is Mr. Wolfe, although he has been in the city nearly a month, supposed to have been serving his sentence, has not been in jail at all but has been on the streets most of the time. About a week ago Deputy United States Marshal Tufts was in the city and he happened to recognize Wolfe and it is understood later on made another trip to the city to investigate the matter. He found the true condition of the matter and reported to his superiors at St. Paul. The result was that Deputy United States Marshal Sheehan arrived in the city yesterday morning and yesterday noon took Mr. Wolfe in custody and took him to St. Paul where he will have to serve out the rest of his sentence in the Ramsey county jail.

While Deputy Marshal Sheehan was in the city he served papers on Sheriff Erickson, the purport of which does not make pleasant reading for the sheriff. The whole matter got to the ears of Judge Amidon and he issued an order to show cause why Sheriff Erickson should not be punished for contempt. This order is returnable in St. Paul tomorrow and Mr. Erickson went down this noon and will tell the court why he did it.

Mr. Erickson was seen this morning and he states that on the days mentioned in the complaint when the deputy marshal claimed to have seen Wolfe out of jail enjoying freedom and liberty the prisoner was in charge of Deputy Sheriff Winter.

SMALL BLAZE LAST NIGHT.

The Horseshoe Restaurant Endangered
But The Department Does Good
Work And Saves Loss.

About 8 o'clock last evening the fire department was called out to a restaurant owned by George West on Laurel street, known as the Horseshoe restaurant. Fire was discovered in the rear end of the building and the flames seemed to have enveloped the entire building, but it appeared that nothing but some inflammable material such as paper on the wall etc. was afire.

A stream of water was turned on and the fire was immediately quenched. The damage will not amount to over \$10.

A nice cool and refreshing drink or delicious ice cream soda at the Owl Pharmacy.

Furniture, carpets and stoves sold on small payments at D. M. Clark & Co.

New line of trunks at D. M. Clark & Co.

NEARLY KILLED.

A brick mason tender working on the new Cleary, McGinnis & Hemstead building narrowly escaped being killed this afternoon about 3 o'clock. The pulley which is used to haul brick to the top broke and a lot of brick and a large chain fell from the third story, hitting him squarely on the head. His head was badly hurt, but it is not known whether the skull is fractured. His name is Levy King.

HORRIBLE ACCIDENT.

Befell The 11-year Old Son of Drayman Si Hall yesterday Afternoon At The Farm.

Ray Hall, the 11-year old son of Drayman Si Hall, was a victim of a very painful accident yesterday afternoon which occurred on Mr. Hall's farm several miles south of the city. Mr. Hall, the boy and the hired man by the name of William Algrin went out to the farm yesterday morning to begin haying. The hired man had just started in to cut hay on the meadow. Young Ray was standing near the mower and just as Algrin started the team ahead the young boy jumped in front of the sickle bar. The ugly teeth of the bar caught the boy in the instep of the left foot and threw him to the ground and had the mower gone a foot further it is likely that Ray's foot and leg would have been more seriously mangled.

As it was the bone in the instep of the foot was quite badly shattered and the skin torn off. The young boy was driven to the city, a physician was called and the wound was dressed. While the boy will suffer greatly from the injury it is not thought it will prove serious.

Neighborhood Gossip.

Some new developments are talked of in the Wise murder case at Anoka.

Charles Bartholemey, of St. Cloud, died on Monday evening as a result of injuries received five years ago.

Raymond Craig, of Wadena, aged eleven, died Tuesday of blood poisoning, resulting from a wound caused by the accidental discharge of a toy pistol.

The sentence of John Foster, sentenced from Cass county for six years in the pen at Stillwater, has been commuted to four years and four months by the pardon board.

Michael Lynch a prominent business man, of Park Rapids, was held up on the street of Park Rapids while going home about eleven o'clock Tuesday night by two desperate-looking characters. He was badly beaten about the head and body and robbed of his money and gold watch.

St. Cloud will not call an election for a library board under the new law. Red Wing, Faribault and Stillwater will hold elections, and undoubtedly Winona will also call an election. The reason St. Cloud refuses to call an election is that the city attorney of that place declares the library law unconstitutional.—Stillwater Gazette.

Engineer Darling and Superintendent Wilson of the N. P. are in Fargo today and are in conference on the matter of the proposed enlargement of the Fargo yards west of the shops, so as to relieve the pressure in the vicinity of the depot. It is expected that the changes projected will be completed before the busy season begins.—Fargo Forum.

Teachers' summer school opened at Wadena Monday with good attendance. The school is under management of Prof. J. T. Torrens of this city and Prof. William Angus, of Warren, Minn., high school as first assistant and Miss Maud Martin of Little Falls as second assistant. The school opened with attendance of forty-seven. More are expected within a few days, as soon as more schools close.

Now Rates To Buffalo Exposition via the Nickel Plate Road. Also special reduced rates Chicago to New York and return. Three through daily trains with vestibuled sleeping cars and excellent dining car service meals being served on the American Club Meals plan, ranging in price from 35 cents to \$1.00. Chicago Depot Van Buren St. & Pacific Ave., on the Elevated Loop.

Write John Y. Calahan, General Agent, 111 Adams St., Chicago, for full information and beautifully illustrated descriptive folder of the Exposition Buildings and Grounds.

WARM UNDER
THE COLLAR.

Superintendent of Roads and
Bridges McFarland Gives
People a Hunch.

PETTY COMPLAINTS ANNOYING.

Says if Brainerd People Don't be
Careful Depot and all Will
Be Moved.

R. E. McFarland, supervisor of buildings and bridges for the Northern Pacific, was a guest in the city yesterday and the first man he saw was City Clerk Low. He laid for him and was waiting at the city hall when the genial city clerk arrived there after dinner.

Mr. McFarland was there with a kick and he made it pretty forcible for a time, but before the conversation closed he had cooled down some. His indignation was aroused over the petty complaints that are being constantly filed, and suits started, against the railroad company on the charge of blocking the crossings. He went on to state that it took five minutes or more to connect the air and it was almost impossible for the trains to always make good time in getting in and out of the city when there was any switching to do.

Mr. McFarland stated that if the continual nagging at the company was kept up that the depot and the whole outfit would be moved across the river.

Asked about the report of the new depot in the park he said nothing had ever been done in this matter and he was sure there would be nothing done this year. He was indignant over the complaints being made and could talk about nothing else. City Clerk Low jokingly remarked that it would be a nice thing if the depot was moved across the river then there would be the extra pleasure of having a bus ride once and awhile.

DEERWOOD.

Rev. Copper, of Aitkin, was a visitor at Deerwood on Wednesday.

James McCarvill has his new house completed and rented the same to Rev. Parish.

A number of the young people of Brainerd enjoyed an outing at our town on Sunday last.

C. J. Rathvon has finished sawing and is now cutting shingles and running the planing mill.

No news from Deerwood for two or three weeks so I thought I would take the matter up and be reporter this week.

C. H. Adams, the genial landlord of the Adams House, has made his better half a present of an elegant new piano.

Wm. Elmore has moved his house to the adjoining lot and is building a large main part to it which will make him a fine place.

Mr. Huddleston and wife, of London, England, are camping on Lake Portage and expects to stay for a couple of months.

Wm. Kelly sold his property at the west end of Serpent Lake to Mrs. Webster, of Duluth, who is fitting up the house for a summer residence.

Rev. Parish returned on the 4th from his visit to Ontario, and preached to the people of Deerwood Sunday evening last. He reports having a good time.

Robt. Archibald sold two acres of land on Serpent lake to a gentleman from Duluth who has started to build a fine summer residence which he expects to occupy in about six weeks.

The Deerwood creamery started to manufacture butter one week ago last Monday. The farmers for miles around brought in their milk, and everything started up in good shape. Mr. Carlson the head partner is giving the business his personal supervision, and has turned out first-class butter from the start. We wish the firm the success which they deserve. JACOB.

Epworth League Meeting

At San Francisco, July 10th to 21st, 1901. For this occasion tickets at reduced rates will be on sale July 6th to 13th inclusive, with final limit of August 4th, and 31st, according to class of ticket. For detail information as to rates, etc., inquire of W. D. McKay, agent.

COMMISSIONER'S PROCEEDINGS.

Proceedings of the Meeting of the Board
Crow Wing County Commissioners.
Meeting Held July 8th,
1901.

[OFFICIAL.]

Board met as above in regular session at 10 o'clock a. m., all members being present.

The minutes of the last meeting were read and approved as read.

On motion duly carried, a petition to lay out a road at Sections 29 and 32, Town 45, Range 29, was granted.

On motion duly carried, a committee consisting of Commissioners Paine, Erickson and the chairman was appointed to make a division of moneys on hand in school districts Nos. 15, 18 and 33, in favor of district No. 68, created out of said districts.

Moved and duly carried, that W. H. Rosenkranz, O. C. Olson and H. M. Johnson be appointed a committee of three to appraise damages and benefits to O. G. Seeland on account of the road being laid out through his land.

On motion duly carried, the report of Geo. S. McCulloch, overseer of the poor farm, for the month of June was read and accepted.

Report of superintendent of schools for second quarter of 1901 was read and approved.

A petition for the organization of Town 138, Range 25, into a school district, the same to be known as No. 69, was read and granted.

On motion duly carried, a recommendation for a reduction of the valuation on Syndicate addition to \$200 for 1899 and 1900 was made.

On motion duly carried, the following appropriations from the road and bridge fund were made:

\$50 for Town of Garrison, on South Mille Lacs road.

\$25 for Town of Oak Lawn, on cross road between Mille Lacs and Bay Lake road.

\$32 for Town of Smiley, for road work in said town.

\$50 on Brainerd and Deerwood road, to be expended under direction of Commissioner Maghan.

\$25 on Bay Lake road at Rosenkranz's place.

\$25 for Town of Maple Grove, at Section 26, Town 44, Range 29.

\$50 for work on the Cunningham road, in Town 45, Range 30, under direction of Commissioner Erickson.

Board adjourned till July 9th, at 10 a. m.

JULY 9TH, 10 A. M.

Full board met. The following resolution was unanimously adopted:

Justice will be given.

A Matter of Life and Death

for the Amalgamated Association the non-union mills be done away with, as Mr. Shaffer put the situation. The alleged method adopted by the American Sheet Steel Company, practically starving the employees of the old Meadow mills in Scottdale, a non-union agreement, was elaborated on and the demand made by that company that the mill be left out of scale entirely in the future was taken as an indication of what the general BILLS ALLOWED.

OLE'S QUEER
PREDICAMENT.

Sheriff Erickson Allowed a United
State Prisoner His
Liberty.

MUST APPEAR BEFORE COURT.

Order to Show Cause Made Re-
turnable in St. Paul Tomor-
row Morning.

There is a strong probability that Sheriff Ole Erickson of this city will have to serve a sentence in his own jail in this city unless he is able to satisfy Judge Amidon, of the United States court at St. Paul that he acted in good faith when he allowed one of his prisoners, sentenced to serve ninety days in jail by Judge Amidon, his liberty.

George W. Wolfe, of Motley, had been convicted in the United States court of cutting timber off government land and was fined \$1000 and sentenced to serve a ninety day sentence in the county jail of Crow Wing county. Wolfe is very popular in this and adjoining counties and it is claimed that his friends have done everything possible to secure his release even going so far as inducing Sheriff Erickson to let the prisoner walk about the city and have his liberty.

It is claimed by Wolfe, and it is pretty generally understood, that he had no connection with the crime at all, but that he took the sentence allowing others who were really the instigators in the crime to keep out of the clutches of the law. At one time a petition was gotten up addressed to the president of the United States praying for Wolfe's release, but these were recalled as it was not thought that they would be necessary as new developments were presenting themselves which would entirely vindicate Mr. Wolfe.

The fact is Mr. Wolfe, although he has been in the city nearly a month, supposed to have been serving his sentence, has not been in jail at all but has been on the streets most of the time. About a week ago Deputy United States Marshal Tufts was in the city and he happened to recognize Wolfe and it is understood later on made another trip to the city to investigate the matter. He found the true condition of the matter and reported to his superiors at St. Paul. The result was that Deputy United States Marshal Sheehan arrived in the city yesterday morning and yesterday noon took Mr. Wolfe in custody and took him to St. Paul where he will have to serve out the rest of his sentence in the Ramsey county jail.

While Deputy Marshal Sheehan was in the city he served papers on Sheriff Erickson, the purport of which does not make pleasant reading for the sheriff. The whole matter got to the ears of Judge Amidon and he issued an order to show cause why Sheriff Erickson should not be punished for contempt. This order is returnable in St. Paul tomorrow and Mr. Erickson went down this noon and will tell the court why he did it.

Mr. Erickson was seen this morning and he states that on the days mentioned in the complaint when the deputy marshal claimed to have seen Wolfe out of jail enjoying freedom and liberty the prisoner was in charge of Deputy Sheriff Winter.

SMALL BLAZE LAST NIGHT.

The Horseshoe Restaurant Endangered
But The Department Does Good

Work And Saves Loss.

About 8 o'clock last evening the fire department was called out to a restaurant owned by George West on Laurel street, known as the Horseshoe restaurant. Fire was discovered in the rear end of the building and the flames seemed to have enveloped the entire building, but it appeared that nothing but some inflammable material such as paper on the wall etc. was afire.

A stream of water was turned on and the fire was immediately quenched. The damage will not amount to over \$10.

A nice cool and refreshing drink or delicious ice cream soda at the Owl Pharmacy.

Furniture, carpets and stoves sold on small payments at D. M. Clark & Co.

New line of trunks at D. M. Clark & Co.

NEARLY KILLED.

A brick mason tender working on the new Cleary, McGinnis & Hemstead building narrowly escaped being killed this afternoon about 3 o'clock. The pully which is used to haul brick to the top broke and a lot of brick and a large chain fell from the third story, hitting him squarely on the head. His head was badly hurt, but it is not known whether the skull is fractured. His name is Levy King.

HORRIBLE ACCIDENT.

Befell The 11-year Old Son of Drayman Si
Hall yesterday Afternoon At
The Farm.

Ray Hall, the 11-year old son of Drayman Si Hall, was a victim of a very painful accident yesterday afternoon which occurred on Mr. Hall's farm several miles south of the city. Mr. Hall, the boy and the hired man by the name of William Algrin went out to the farm yesterday morning to begin haying. The hired man had just started in to cut hay on the meadow. Young Ray was standing near the mower and just as Algrin started the team ahead the young boy jumped in front of the sickle bar. The ugly teeth of the bar caught the boy in the instep of the left foot and threw him to the ground and had the mower gone a foot further it is likely that Ray's foot and leg would have been more seriously mangled.

As it was the bone in the instep of the foot was quite badly shattered and the skin torn off. The young boy was driven to the city, a physician was called and the wound was dressed. While the boy will suffer greatly from the injury it is not thought it will prove serious.

Neighborhood Gossip.

Some new developments are talked of in the Wise murder case at Anoka.

Charles Bartholemey, of St. Cloud, died on Monday evening as a result of injuries received five years ago.

Raymond Craig, of Wadena, aged eleven, died Tuesday of blood poisoning, resulting from a wound caused by the accidental discharge of a toy pistol.

The sentence of John Foster, sentenced from Cass county for six years in the pen at Stillwater, has been commuted to four years and four months by the pardon board.

Michael Lynch a prominent business man, of Park Rapids, was held up on the street of Park Rapids while going home about eleven o'clock Tuesday night by two desperate-looking characters. He was badly beaten about the head and body and robbed of his money and gold watch.

St. Cloud will not call an election for a library board under the new law. Red Wing, Faribault and Stillwater will hold elections, and undoubtedly Winona will also call an election. The reason St. Cloud refuses to call an election is that the city attorney of that place declares the library law unconstitutional.—Stillwater Gazette.

Engineer Darling and Superintendent Wilson of the N. P. are in Fargo today and are in conference on the matter of the proposed enlargement of the Fargo yards west of the shops, so as to relieve the pressure in the vicinity of the depot. It is expected that the changes projected will be completed before the busy season begins.—Fargo Forum.

Teachers' summer school opened at Wadena Monday with good attendance. The school is under management of Prof. J. T. Torrens of this city and Prof. William Angus, of Warren, Minn., high school as first assistant and Miss Maud Martin of Little Falls as second assistant. The school opened with attendance of forty-seven. More are expected within a few days, as soon as more schools close.

Superintendent of Roads and
Bridges McFarland Gives
People a Hunch.

PETTY COMPLAINTS ANNOYING.

Says if Brainerd People Don't be
Careful Depot and all Will
Be Moved.

R. E. McFarland, supervisor of buildings and bridges for the Northern Pacific, was a guest in the city yesterday and the first man he saw was City Clerk Low. He laid for him and was waiting at the city hall when the genial city clerk arrived there after dinner.

Mr. McFarland was there with a kick and he made it pretty forcible for a time, but before the conversation closed he had cooled down some. His indignation was aroused over the petty complaints that are being constantly filed, and suits started, against the railroad company on the charge of blocking the crossings. He went on to state that it took five minutes or more to connect the air and it was almost impossible for the trains to always make good time in getting in and out of the city when there was any switching to do.

Mr. McFarland stated that if the continual nagging at the company was kept up that the depot and the whole outfit would be moved across the river.

Asked about the report of the new depot in the park he said nothing had ever been done in this matter and he was sure there would be nothing done this year. He was indignant over the complaints being made and could talk about nothing else. City Clerk Low jokingly remarked that it would be a nice thing if the depot was moved across the river then there would be the extra pleasure of having a bus ride once and awhile.

DEERWOOD.

Rev. Copper, of Aitkin, was a visitor at Deerwood on Wednesday.

James McCarvill has his new house completed and rented the same to Rev. Parish.

A number of the young people of Brainerd enjoyed an outing at our town on Sunday last.

C. J. Rathvon has finished sawing and is now cutting shingles and running the planing mill.

No news from Deerwood for two or three weeks so I thought I would take the matter up and be reporter this week.

C. H. Adams, the genial landlord of the Adams House, has made his better half a present of an elegant new piano.

Wm. Elmore has moved his house to the adjoining lot and is building a large main part to it which will make him a fine place.

Mr. Huddleston and wife, of London, England, are camping on Lake Portage and expects to stay for a couple of months.

Wm. Kelly sold his property at the west end of Serpent Lake to Mrs. Webster, of Duluth, who is fitting up the house for a summer residence.

Rev. Parish returned on the 4th from his visit to Ontario, and preached to the people of Deerwood Sunday evening last. He reports having a good time.

Robt. Archibald sold two acres of land on Serpent lake to a gentleman from Duluth who has started to build a fine summer residence which he expects to occupy in about six weeks.

The Deerwood creamery started to manufacture butter one week ago last Monday. The farmers for miles around brought in their milk, and everything started up in good shape. Mr. Carlson the head partner is giving the business his personal supervision, and has turned out first-class butter from the start. We wish the firm the success which they deserve.

JACOB.

Epworth League Meeting

At San Francisco, July 10th to 21st, 1901. For this occasion tickets at reduced rates will be on sale July 6th to 13th inclusive, with final limit of August 4th, and 31st, according to class of ticket. For detail information as to rates, etc., inquire of W. D. McKay, agent.

COMMISSIONER'S PROCEEDINGS.

Proceedings of the Meeting of the Board
Crow Wing County Commissioners.

Meeting Held July 8th,
1901.

[OFFICIAL.]

Board met as above in regular session at 10 o'clock a. m., all members being present.

The minutes of the last meeting were read and approved as read.

On motion duly carried, a petition to lay out a road at Sections 29 and 32, Town 45, Range 29, was granted.

On motion duly carried, a committee consisting of Commissioners Paine, Erickson and the chairman was appointed to make a division of moneys on hand in school districts Nos. 15, 18 and 33, in favor of district No. 68, created out of said districts.

Moved and duly carried, that W. H. Rosenkranz, O. C. Olson and H. M. Johnson be appointed a committee of three to appraise damages and benefits to O. G. Seeland on account of the road being laid out through his land.

On motion duly carried, the report of Geo. S. McCulloch, overseer of the poor farm, for the month of June was read and accepted.

Report of superintendent of schools for second quarter of 1901 was read and approved.

A petition for the organization of Town 138, Range 25, into a school district, the same to be known as No. 69, was read and granted.

On motion duly carried, a recommendation for a reduction of the valuation on Syndicate addition to \$200 for 1899 and 1900 was made.

On motion duly carried, the following appropriations from the road and bridge fund were made:

\$50 for Town of Garrison, on South Mille Laes road.

\$25 for Town of Oak Lawn, on cross road between Mille Laes and Bay Lake road.

\$32 for Town of Smiley, for road work in said town.

\$50 on Brainerd and Deerwood road, to be expended under direction of Commissioner Maghan.

\$25 on Bay Lake road at Rosenkranz's place.

\$25 for Town of Maple Grove, at Section 26, Town 44, Range 29.

\$50 for work on the Cunningham road, in Town 45, Range 30, under direction of Commissioner Erickson.

Board adjourned till July 9th, at 10 a. m.

JULY 9TH, 10 A. M.

Full board met. The following resolution was unanimously adopted:

A Matter of Life and Death
for the Amalgamated Association that the non-union mills be done away with, as Mr. Shaffer put the situation. The alleged method adopted by the American Sheet Steel company, practically starving the employees of the old Meadow mills in Scotland by a non-union agreement, was elaborated on and the demand made by that company that the mill be left out of scale entirely in the future was taken as an indication of what the general mills allowed.

OLE'S QUEER PREDICAMENT.

Sheriff Erickson Allowed a United
State Prisoner His
Liberty.

MUST APPEAR BEFORE COURT.

Order to Show Cause Made Re-
turnable in St. Paul Tomor-
row Morning.

There is a strong probability that Sheriff Ole Erickson of this city will have to serve a sentence in his own jail in this city unless he is able to satisfy Judge Amidon, of the United States court at St. Paul that he acted in good faith when he allowed one of his prisoners, sentenced to serve ninety days in jail by Judge Amidon, his liberty.

George W. Wolfe, of Motley, had been convicted in the United State court of cutting timber off govern- ment land and was fined \$1000 and sentenced to serve a ninety day sen- tence in the county jail of Crow Wing county. Wolfe is very popular in this and adjoining counties and it is claimed that his friends have done everything possible to secure his release even going so far as inducing Sheriff Erickson to let the prisoner walk about the city and have his liberty.

It is claimed by Wolfe, and it is pretty generally understood, that he had no connection with the crime at all, but that he took the sentence al- lowing others who were really the instigators in the crime to keep out of the clutches of the law. At one time a petition was gotten up ad- dressed to the president of the United States praying for Wolfe's release, but these were recalled as it was not thought that they would be neces- sary as new developments were presenting themselves which would entirely vindicate Mr. Wolfe.

The fact is Mr. Wolfe, although he has been in the city nearly a month, supposed to have been serving his sentence, has not been in jail at all but has been on the streets most of the time. About a week ago Deputy United States Marshal Tufts was in the city and he happened to recognize Wolfe and it is understood later on made another trip to the city to in- vestigate the matter. He found the true condition of the matter and re- ported to his superiors at St. Paul. The result was that Deputy United States Marshal Sheehan arrived in the city yesterday morning and yes- terday noon took Mr. Wolfe in cus- today and took him to St. Paul where he will have to serve out the rest of his sentence in the Ramsey county jail.

While Deputy Marshal Sheehan was in the city he served papers on Sheriff Erickson, the purport of which does not make pleasant reading for the sheriff. The whole matter got to the ears of Judge Amidon and he issued an order to show cause why Sheriff Erickson should not be pun- ished for contempt. This order is returnable in St. Paul tomorrow and Mr. Erickson went down this noon and will tell the court why he did it. Mr. Erickson was seen this morn- ing and he states that on the days mentioned in the complaint when the deputy marshal claimed to have seen Wolfe out of jail enjoying freedom and liberty the prisoner was in charge of Deputy Sheriff Winter.

WARM UNDER THE COLLAR.

Superintendent of Roads and
Bridges McFarland Gives
People a Hunch.

PETTY COMPLAINTS ANNOYING.

Says if Brainerd People Don't be
Careful Depot and all Will
Be Moved.

R. E. McFarland, supervisor of buildings and bridges for the North- ern Pacific, was a guest in the city yesterday and the first man he saw was City Clerk Low. He laid for him and was waiting at the city hall when the genial city clerk arrived there after dinner.

Mr. McFarland was there with a kick and he made it pretty forcible for a time, but before the conversa- tion closed he had cooled down some. His indignation was aroused over the petty complaints that are being con- stantly filed, and suits started, against the railroad company on the charge of blocking the crossings. He went on to state that it took five minutes or more to connect the air and it was almost impossible for the trains to always make good time in getting in and out of the city when there was any switching to do.

Mr. McFarland stated that if the continual nagging at the company was kept up that the depot and the whole outfit would be moved across the river.

Asked about the report of the new depot in the park he said nothing had ever been done in this matter and he was sure there would be no- thing done this year. He was indig- nant over the complaints being made and could talk about nothing else. City Clerk Low jokingly remarked that it would be a nice thing if the depot was moved across the river then there would be the extra pleas- ure of having a bus ride once and awhile.

DEERWOOD.

Rev. Copper, of Aitkin, was a visitor at Deerwood on Wednesday. James McCarvill has his new house completed and rented the same to Rev. Parish.

A number of the young people of Brainerd enjoyed an outing at our town on Sunday last.

C. J. Rathvon has finished sawing and is now cutting shingles and run- ning the planing mill.

No news from Deerwood for two or three weeks so I thought I would take the matter up and be reporter this week.

C. H. Adams, the genial landlord of the Adams House, has made his better half a present of an elegant new piano.

Wm. Elmore has moved his house to the adjoining lot and is building a large main part to it which will make him a fine place.

Mr. Huddelstone and wife, of Lon- don, England, are camping on Lake Portage and expects to stay for a couple of months.

Wm. Kelly sold his property at the west end of Serpent Lake to Mrs. Webster, of Duluth, who is fitting up the house for a summer residence.

Rev. Parish returned on the 4th from his visit to Ontario, and preached to the people of Deerwood Sunday evening last. He reports having a good time.

Robt. Archibald sold two acres of land on Serpent lake to a gentleman from Duluth who has started to build a fine summer residence which he expects to occupy in about six weeks.

The Deerwood creamery started to manufacture butter one week ago last Monday. The farmers for miles around brought in their milk, and everything started up in good shape. Mr. Carlson the head partner is giv- ing the business his personal super- vision, and has turned out first-class butter from the start. We wish the firm the success which they deserve.

JACOB.

Epworth League Meeting

At San Francisco, July 10th to 21st, 1901. For this occasion tickets at reduced rates will be on sale July 6th to 13th inclusive, with final limit of August 4th, and 31st, according to class of ticket. For detail in- formation as to rates, etc., inquire of W. D. McKay, agent.

COMMISSIONER'S PROCEEDINGS.

Proceedings of the Meeting of the Board
Crow Wing County Commissioners.

Meeting Held July 8th,
1901.

[OFFICIAL.]

Board met as above in regular ses- sion at 10 o'clock a. m., all members being present.

The minutes of the last meeting were read and approved as read.

On motion duly carried, a petition to lay out a road at Sections 29 and 32, Town 45, Range 29, was granted.

On motion duly carried, a commit- tee consisting of Commissioners Paine, Erickson and the chairman was ap- pointed to make a division of moneys on hand in school districts Nos. 15, 18 and 33, in favor of district No. 68, created out of said districts.

Moved and duly carried, that W. H. Rosenkranz, O. C. Olson and H. M. Johnson be appointed a committee of three to appraise damages and benefits to O. G. Seelland on account of the road being laid out through his land.

On motion duly carried, the report of Geo. S. McCulloch, overseer of the poor farm, for the month of June was read and accepted.

Report of superintendent of schools for second quarter of 1901 was read and approved.

A petition for the organization of Town 138, Range 25, into a school district, the same to be known as No. 69, was read and granted.

On motion duly carried, a recom- mendation for a reduction of the valuation on Syndicate addition to \$200 for 1899 and 1900 was made.

On motion duly carried, the follow- ing appropriations from the road and bridge fund were made:

\$50 for Town of Garrison, on South Mille Laes road.

\$25 for Town of Oak Lawn, on cross road between Mille Laes and Bay Lake road.

\$32 for Town of Smiley, for road work in said town.

\$50 on Brainerd and Deerwood road, to be expended under direction of Commissioner Maghan.

\$25 on Bay Lake road at Rosen- kranz's place.

\$25 for Town of Maple Grove, at Section 26, Town 44, Range 29.

\$50 for work on the Cunningham road, in Town 45, Range 30, under direction of Commissioner Erickson.

Board adjourned till July 9th, at 10 a. m.

JULY 9TH, 10 A. M.

Full board met. The following resolution was unanimously adopted:

HUNDREDS LINED UP
IMMENSE RUSH FOR LAND BY THE HOMESEKERS AT EL RENO.

NO TROUBLE OCCURRED

Rumor That the Government Officials Would Not Recognize This Formation Nearly Precipitated a Riot. Many Women in the Assemblage. Similar Scenes Were Also Enacted at Lawton.

El Reno, O. T., July 11.—Following out the proclamation of President McKinley opening up to settlement by the whites the 13,000 farms in the Kiowa-Comanche country the first registration of homeseekers was made here and at Lawton at 9 o'clock a. m. Hundreds were lined before the various registration booths when darkness came and the registrations will continue until all who come have been given an opportunity to file their names. The drawing by lottery will begin on July 29, and until then none of the 50,000 applicants will know whether or not he has been lucky enough to receive a homestead.

The lottery scheme robbed the "opening" of the picturesque run and the exciting times incident to the great opening of the Cherokee strip 10 years ago. Compared with that event the affair was tame in the extreme. Although there are perhaps 20,000 people in town practically no disorder prevailed.

As a rule the homeseekers were well provided with money and provisions, and aside from the long wait in the sun before the registration booths, no serious inconvenience has been experienced.

Many had waited on the border of the new country for two years or more, and the last night of their long vigil was the most trying they had experienced. The line was made up of the halt, the lame and the brawny frontiersman, sprawled out in the dust. The crowd before each booth elected a captain and each man and woman in line was given a number, which they planned conspicuously to their clothes. A company member was permitted occasionally to absent himself from the line for a short breathing spell and invariably his place was protected by his fellow watchers.

As the hour of 9 o'clock neared interlopers tried to push in and break the numerical order of the line organization. This

Instantly Raised Bad Blood and when word was passed down the line a little later that the booth officials would not recognize the line organization, but would register the first persons to present themselves, there were threats of violence and rioting seemed likely. Trouble was prevented by the early announcement that the line organization would be respected by the government officials, and waving of hats greeted this word, and from this time forth no sign of trouble was apparent. Applicants were admitted to the booths four at a time and the filing proceeded rapidly all day long.

During the day the heat became intense, but no serious suffering was reported. The numerous women in line were treated gallantly by the men, who shaded them from the sun with umbrellas and furnished drinks from the lemonade vendors who plied their wares.

The second place of registration named in the proclamation was at Lawton, 25 miles overland, where similar scenes to those enacted at El Reno were witnessed. The people in the vicinity of Mountain View and other points along the border contiguous to the point presented themselves early at the Lawton booths.

ALFRED NORLIN SENTENCED.

Defaulting County Treasurer of Minden, Neb., Gets Five Years.

Minden, Neb., July 11.—County Treasurer Alfred Norlin, who confessed to the embezzlement of \$10,000 of county funds and admitted he set the courthouse on fire to cover his crime, has been taken to the penitentiary at Lincoln. At Norlin's request a special session of the district court was held, before which the embezzling treasurer entered a plea of guilty and was sentenced to six years imprisonment and to pay a fine of \$5,400, the amount of his shortage after the restitution he made. The arrest of Norlin, his trial, conviction and sentence, all in less than 24 hours, is probably the most speedy disposition of a criminal case in the history of Nebraska courts.

Murdered and Robbed.

Kansas City, July 11.—The body of Frank Honelky of Mount Vernon, Ill., was found in a deserted spot a mile east of this city. The skull was crushed and the pockets rifled. He had evidently been murdered and robbed. The body had lain two days where found. Identification was made by a receipt for a money order sent to Mrs. Frank Honelky, Mount Vernon, Ill., and a letter addressed to him.

Fatal Indiana Shooting.

New Albany, Ind., July 11.—John Casteau, 28 years old, was shot and killed by Joseph Turner, 25 years old, at the latter's home, three miles west of this city. Casteau went to Turner's house and attempted to take Mrs. Turner away.

KILBOURNE FOR GOVERNOR.

Ohio Democrats Nominate Their State Ticket.

Columbus, O., July 11.—The Democratic state convention adjourned after nominating the following ticket: Governor, James Kilbourne; lieutenant governor, Anthony Howells; judge of the supreme court, Harry B. Young; attorney general, M. B. McCarthy; state treasurer, R. P. Alshire; member of board of public works, James B. Holman.

The convention had more prominent men as delegates than any convention of Democrats in Ohio for many years. The nomination of Colonel Kilbourne was appropriately called one of "spontaneous combustion." Howells, Hidy, Alshire and Holman were favorites at great odds from the start. Several amendments were ingrafted into the McLean platform and that document as amended was adopted with unanimity. Charles P. Salen, representative of Mayor Tom L. Johnson, was both temporary and permanent chairman of the convention, and the delegates repeatedly quoted Senator Hanna by shouting "Salen knows his business."

It was currently reported that Mayor Johnson desired the nomination of Frank S. Monnett as attorney general and that the McLean men wanted Monnett defeated. At any rate the defeat of Monnett was so decisive as to be a feature of the convention. Mr. Monnett, as attorney general, had brought suits against the Standard Oil company and other corporations to cancel their charters under the anti-trust laws. He had sought a third term nomination from the Republicans on the issue that he should be retained in that office to

Continue These Prosecutions.

After his defeat for the third nomination in 1899 he supported Bryan in 1900 on the anti-trust issue and canvassed Ohio and other states with Bryan. Judge Smalley, in presenting Monnett's name, said he was "known from the Golden Gate of San Francisco to the Hell Gate of New York as the enemy of trusts."

Noticing the absence of any portrait of Bryan among the decorations one of the delegates started to carry a small banner with Bryan's picture on it to the platform. The aisles were ordered cleared and the picture did not reach its destination. It was trampled under foot and spoiled during the demonstration when Colonel Kilbourne was escorted into the hall. Members of the committee on resolutions stated that several hours were spent in denouncing the Chicago and Kansas City platforms and the leader who stood on them. There are various rumors in connection with the senatorship to succeed Foraker. The names of John McLean and of Tom L. Johnson are most prominently mentioned in this connection.

YACHT RACE CALLED OFF.

Dead Calm and Thick Atlantic Fog Prevailed.

Newport, R. I., July 11.—The third race between Constitution, Columbia and Independence came to an inglorious end in a dead calm and the thickest kind of Atlantic fog. There was little time to form judgment on the relative speeds of the three boats, for in less than half an hour after the

Columbia behind by nearly a mile and the Independence by nearly two miles.

SESSION AT AN END.

Convention of United Society of Christian Endeavor Adjourns.

Cincinnati, July 11.—The 20th international convention of the United Society of Christian Endeavor was brought to a close here. In attendance the evening meeting was not up to expectations. Both President Clark and Secretary Baer expressed themselves as highly gratified with the convention, which, they said, even if numerically small, allowed those who did attend to carry home with them a greater share of the blessings of the meetings.

NEW BOXER MOVEMENT.

Pu Chun and Prince Tuan Said to Be Implicated.

Shanghai, July 11.—A new Boxer movement is being started, according to Chinese intelligence from Sian Fu. Pu Chun, the heir apparent, with other members of Prince Tuan's family, has gone to join Prince Tuan on the borders of Mongolia, and there are strong indications that Prince Tuan is preparing to march against the foreigners with the tacit approval of the empress dowager.

Governor Allen May Resign.

San Juan, Porto Rico, July 11.—Governor Allen, when his attention was called to the report that he would resign in the near future, said: "I have not resigned and I shall not take any action in the matter until after I have seen President McKinley."

Captain Sigbee Improving.

New York, July 11.—Captain Sigbee, U. S. N., who is at Hampstead, L. I., is greatly improved, but still confined to his bed. Captain Sigbee is suffering from erysipelas.

ANOTHER DOWIEITE RIOT.

Evanston, Ill., the Scene of a Lively Demonstration.

Chicago, July 11.—Followers of John Alexander Dowie, made another attempt to convert the citizens of Evanston and failed, as on former occasions. They visited the place in greater force than ever before, there being fully 200 of them, but their increased numbers only brought them a greater defeat. One half of the Dowieites were followers of "Zion" and the remainder were members of the paid bodyguard which Dowie maintains. The guards were intended to prevent any interference with the meeting and when it commenced they formed around the Dowieites proper to hold back the crowd of fully 1,500 people, which had gathered rapidly as soon as it was known that another Dowie meeting was in progress. As on former occasions, eggs and vegetables were speedily prominent in the proceedings and the Dowie guards and those whom they were trying to protect were soon spattered with yolks and "battered" with old vegetables. Several fights resulted between the guards and people of the town, generally with damaging results to the guards. The entire police force of Evanston was called into service and after the chief of police had ordered the Dowieites to withdraw and had met with a refusal, he ordered his men to charge them. The police did not use their clubs and the guards held them back by sheer weight and force of numbers.

The crowd meanwhile was growing ugly and Mayor Bates of Evanston, seeing that unless something was done quickly people would be seriously hurt and possibly killed, ordered out a fire engine. The steamer at once turned a 4-inch stream on the Dowieites and they

Went Over Like Tenpins.

Women as well as men were thrown down by the stream and sent rolling in the mud. The people of Evanston danced and hooted with delight as the firemen steadily advanced, driving the Dowieites before them in utter rout. The work was done with impartiality and whatsoever Dowieite was dilatory in movement was washed along by the 4-inch stream.

As the Dowieites fled the dry method of attack came once more into favor and the bombardment of eggs and vegetables was resumed and aided materially the purging of the town of the presence of the Dowieites. Elder Piper of Dowie's church, who had been in command of the small army, was arrested on a charge of disorderly conduct. While he was being led to the station men and boys, armed with syringes containing dirty water and other liquids more objectionable, made him an object of especial attention, and he was in a sorry condition when the station doors closed behind him.

About 20 other Dowieites were taken into custody, more to save them from the crowd in the streets than for any other reason.

The Dowieites say they will return in greater force and the people of Evanston declare that it will only make the next riot just so much larger.

The Boat Capsized.

Iron Mountain, Mich., July 11.—Miss Louisa Tagly, niece of Father Dasylva of St. Joseph's church, and her guest, Miss Alice Donahue of Ishpeming, were drowned in West lake, Spread Eagle, a summer resort, 11 miles from here. The two girls and Miss Jacobs, accompanied by the priest and another man, were in a rowboat, which capsized. The two men and Miss Jacobs were saved.

Geographical Names.

If any one should speak to you about "s Gravenhaag," you would perhaps not know that they were talking about The Hague, but they would be, and would also be perfectly right, according to the second report of the American board of geographic names, just issued from the government printing office at Washington. Though the board does not hope for a reform in such matters, it says that the custom of anglicizing names of foreign places is absurd and hopes we will go no further in that direction, though we continue to say "The Hague," "Germany" instead of "Deutschland," "Italy" instead of "Italia," and so on through the list.

We must not write "Pittsburgh," for the board says the final "h" in "burgh" should be dropped.

Further, the board says we must, as far as possible, avoid the possessive forms; spell "centre" as here given in geographical names; change "borough" to "boro," drop the hyphen entirely; also drop the words "city" and "town" as parts of names, and entirely eliminate diacritical characters.—New York Herald.

A Boy Champion.

One of the most remarkable swordsmen of the day in Italy, one of those old world nations in which the knowledge of fencing not only is an accomplishment, but a prime necessity of life, is 12-year-old Signor Attilio Monferrito. This lad has just won the national fencing tournament in Bologna. His antagonists were the most celebrated fencers in Italy, including Sartori, whose assistant Attilio used to be. Now the former employer, who was a prize winner in his day, is beaten by a mere boy.

MODEL NATIONAL FARM

Uncle Sam to Give Object Lessons in Agriculture.

SITE ON RIVER SIDE OF ARLINGTON

Four Hundred Acres to Be Used For a Great Experiment Station—All Kinds of Cereals, Fruits and Vegetables Will Be Grown on Advanced Scientific Principles.

Within a very few years one of the great sights of the national capital will be a perfectly appointed farm of 400 acres, with buildings, orchards, truck gardens and grainfields of every kind, says the Washington Post. All the fruits and vegetables of the United States or other countries which experiment shall prove to be capable of cultivation in this climate will be seen there. Systems of drainage and if necessary irrigation, model fencing, the most perfect methods of gathering and storing grain, fruits and vegetables will be exhibited. In addition there will be a home place of six acres where beautiful lawns, pretty shrubbery in artistic designs and suitable shade trees will give a lesson to the suburban resident as well as to the owner of a plantation in the beautifying of dwellings and their surroundings in the country.

To the scientific agriculturists and horticulturists this model farm, which will be made and maintained by the department of agriculture, will offer an opportunity for study in every branch of their science. Methods of cultivation of fruit trees, vegetables, cereals, the growing of grapes, the values of different kinds of fertilizers, will all be exhibited directly in the farm or in the records of its existence, which will be kept for reference.

The site selected for bringing this project to a reality is that portion of the Arlington estate which lies along the bank of the Potomac to the east of the main estate, now used as a cemetery. The McClellan gate to Arlington will be opposite the main gate to the farm, and the latter will occupy all of that rolling land between the river road to the east of Arlington and the river bank. It is already partially laid off, and this work will be continued. About the center of the big farm a plot of six acres will be reserved for the dwelling, barns, etc., and this portion will be treated from an artistic as well as a utilitarian standpoint.

Professor L. C. Corbett of the department of agriculture is in charge of the work and was brought to Washington from the experiment station in West Virginia especially for this purpose. In talking over the plans for the great model farm the capital is to have in the near future Professor Corbett was enthusiastic over the plan. He has gone over the ground and is very well satisfied with the outlook. The soil is a sandy loam and quite rich. Men are now at work plowing up the whole place and planting cowpeas. These will grow heavily by fall, when they will be plowed under, and rye will then be sown, which will also be plowed under when green next spring. This will provide a uniform fertilizer for the whole place and give a foundation for future work. Next fall the fruit and shade trees will be set out, and everything will be done as soon as possible, that the farm may take form in the least possible time.

The six acre lot in the center Professor Corbett intends to make a thing of beauty. It will be a park about the main buildings, and all around will be planted typical ornamental trees and shrubbery. It will be an object lesson in landscape gardening. Which trees and shrubs and how to plant them, what kinds of grass to use for lawn turf and the hundred other things experiment has taught will be at the service of those who aim to beautify and improve their homes.

As a central experiment plantation the great farm will have its highest value. The state agricultural stations are not able to maintain such large farms, and to this national one the horticulturists will be able to come for a sort of postgraduate course in the study of their science. Within its confines they will find the most extensive variety and largest collection of fruit trees in America, and this will include the small fruits, grapes, currants, gooseberries, etc.

A principal feature will be experiments in the cultivation of every fruit or vegetable now imported from other countries with a view to determining what can be raised here and the best method of cultivation. This branch will include vegetables of all kinds, fruits, hops, muskmelons, watermelons, squashes, grasses, forage crops and imported cereals, such as wheat and oats, etc.

The cultivation of fruit and experiments to discover what are the needs of each variety will be studied. The value of fertilizers and cross fertilizers will also be studied. Culture tests will be made of such crops as are planted to cover the ground after cereals have been reaped, such as vetches, clovers and new leguminous plants.

The farm will be devoted exclusively to horticultural demonstrations and experiments. Within five to seven years it will be complete.

The Costless Man.

The shirt waist is all right, says the Slater (Mo.) Rustler. It is practically the garment long ago adopted by the men and boys who preferred comfort to style, and it gives the clerk and business man an opportunity to keep cool and comfortable without being considered discourteous.

HUNDREDS LINED UP

IMMENSE RUSH FOR LAND BY THE HOMESEEKERS AT EL RENO.

NO TROUBLE OCCURRED

Rumor That the Government Officials Would Not Recognize This Formation Nearly Precipitated a Riot. Many Women in the Assemblage. Similar Scenes Were Also Enacted at Lawton.

El Reno, O. T., July 11.—Following out the proclamation of President McKinley opening up to settlement by the whites the 13,000 farms in the Kiowa-Comanche country the first registration of homeseekers was made here and at Lawton at 9 o'clock a. m. Hundreds were lined before the various registration booths when darkness came and the registrations will continue until all who come have been given an opportunity to file their names. The drawing by lottery will begin on July 29, and until then none of the 50,000 applicants will know whether or not he has been lucky enough to receive a homestead.

The lottery scheme robbed the "opening" of the picturesque run and the exciting times incident to the great opening of the Cherokee strip 10 years ago. Compared with that event the affair was tame in the extreme. Although there are perhaps 20,000 people in town practically No Disorder Prevailed.

As a rule the homeseekers were well provided with money and provisions, and aside from the long wait in the sun before the registration booths, no serious inconvenience has been experienced.

Many had waited on the border of the new country for two years or more, and the last night of their long vigil was the most trying they had experienced. The line was made up of the halt, the lame and the brawny frontiersman, sprawled out in the dust. The crowd before each booth elected a captain and each man and woman in line was given a number, which they planned conspicuously to their clothes. A company member was permitted occasionally to absent himself from the line for a short breathing spell and invariably his place was protected by his fellow watchers.

As the hour of 9 o'clock neared interlopers tried to push in and break the numerical order of the line organization. This

Instantly Raised Bad Blood and when word was passed down the line a little later that the booth officials would not recognize the line organization, but would register the first persons to present themselves, there were threats of violence and rioting seemed likely. Trouble was prevented by the early announcement that the line organization would be respected by the government officials, and waving of hats greeted this word, and from this time forth no sign of trouble was apparent. Applicants were admitted to the booths four at a time and the filing proceeded rapidly all day long.

During the day the heat became intense, but no serious suffering was reported. The numerous women in line were treated gallantly by the men, who shaded them from the sun with umbrellas and furnished drinks from the lemonade vendors who plied their wares.

The second place of registration named in the proclamation was at Lawton, 25 miles overland, where similar scenes to those enacted at El Reno were witnessed. The people in the vicinity of Mountain View and other points along the border contiguous to the point presented themselves early at the Lawton booths.

ALFRED NORLIN SENTENCED.

Defaulting County Treasurer of Minden, Neb., Gets Five Years.

Minden, Neb., July 11.—County Treasurer Alfred Norlin, who confessed to the embezzlement of \$10,000 of county funds and admitted he set the courthouse on fire to cover his crime, has been taken to the penitentiary at Lincoln. At Norlin's request a special session of the district court was held, before which the embezzling treasurer entered a plea of guilty and was sentenced to six years imprisonment and to pay a fine of \$5,400, the amount of his shortage after the restitution he made. The arrest of Norlin, his trial, conviction and sentence, all in less than 24 hours, is probably the most speedy disposition of a criminal case in the history of Nebraska courts.

Murdered and Robbed.

Kansas City, July 11.—The body of Frank Honeyky of Mount Vernon, Ill., was found in a deserted spot a mile east of this city. The skull was crushed and the pockets rifled. He had evidently been murdered and robbed. The body had lain two days where found. Identification was made by a receipt for a money order sent to Mrs. Frank Honeyky, Mount Vernon, Ill., and a letter addressed to him.

Fatal Indiana Shooting.

New Albany, Ind., July 11.—John Casteau, 28 years old, was shot and killed by Joseph Turner, 25 years old, at the latter's home, three miles west of this city. Casteau went to Turner's house and attempted to take Mrs. Turner away.

KILBOURNE FOR GOVERNOR.

Ohio Democrats Nominate Their State Ticket.

Columbus, O., July 11.—The Democratic state convention adjourned after nominating the following ticket: Governor, James Kilbourne; lieutenant governor, Anthony Howells; judge of the supreme court, Harry B. Young; attorney general, M. B. McCarthy; state treasurer, R. P. Alshire; member of board of public works, James B. Holman.

The convention had more prominent men as delegates than any convention of Democrats in Ohio for many years.

The nomination of Colonel Kilbourne was appropriately called one of "spontaneous combustion." Howells, Hidy, Alshire and Holman were favorites at great odds from the start. Several amendments were ingrafted into the McLean platform and that document as amended was adopted with unanimity. Charles P. Salen, representative of Mayor Tom L. Johnson, was both temporary and permanent chairman of the convention, and the delegates repeatedly quoted Senator Hanna by shouting "Salen knows his business."

It was currently reported that Mayor Johnson desired the nomination of Frank S. Monnett as attorney general and that the McLean men wanted Monnett defeated. At any rate the defeat of Monnett was so decisive as to be a feature of the convention. Mr. Monnett, as attorney general, had brought suits against the Standard Oil company and other corporations to cancel their charters under the anti-trust laws. He had sought a third term nomination from the Republicans on the issue that he should be retained in that office to

Continue These Prosecutions.

After his defeat for the third nomination in 1899 he supported Bryan in 1900 on the anti-trust issue and canvassed Ohio and other states with Bryan. Judge Smalley, in presenting Monnett's name, said he was "known from the Golden Gate of San Francisco to the Hell Gate of New York as the enemy of trusts."

Noticing the absence of any portrait of Bryan among the decorations one of the delegates started to carry a small banner with Bryan's picture on it to the platform. The aisles were ordered cleared and the picture did not reach its destination. It was trampled under foot and spoiled during the demonstration when Colonel Kilbourne was escorted into the hall. Members of the committee on resolutions stated that several hours were spent in denouncing the Chicago and Kansas City platforms and the leader who stood on them. There are various rumors in connection with the senatorship to succeed Foraker. The names of John McLean and of Tom L. Johnson are most prominently mentioned in this connection.

YACHT RACE CALLED OFF.

Dead Calm and Thick Atlantic Fog Prevailed.

Newport, R. I., July 11.—The third race between Constitution, Columbia and Independence came to an inglorious end in a dead calm and the thickest kind of Atlantic fog. There was little time to form judgment on the relative speeds of the three boats, for in less than half an hour after the

SESSION AT AN END.

Convention of United Society of Christian Endeavor Adjourns.

Cincinnati, July 11.—The 20th international convention of the United Society of Christian Endeavor was brought to a close here. In attendance the evening meeting was not up to expectations. Both President Clark and Secretary Baer expressed themselves as highly gratified with the convention, which, they said, even if numerically small, allowed those who did attend to carry home with them a greater share of the blessings of the meetings.

NEW BOXER MOVEMENT.

Pu Chun and Prince Tuan Said to Be Implicated.

Shanghai, July 11.—A new Boxer movement is being started, according to Chinese intelligence from Sian Fu. Pu Chun, the heir apparent, with other members of Prince Tuan's family, has gone to join Prince Tuan on the borders of Mongolia, and there are strong indications that Prince Tuan is preparing to march against the foreigners with the tacit approval of the empress dowager.

Governor Allen May Resign.

San Juan, Porto Rico, July 11.—Governor Allen, when his attention was called to the report that he would resign in the near future, said: "I have not resigned and I shall not take any action in the matter until after I have seen President McKinley."

Captain Sigbee Improving.

New York, July 11.—Captain Sigbee, U. S. N., who is at Hamstead, L. I., is greatly improved, but still confined to his bed. Captain Sigbee is suffering from erysipelas.

ANOTHER DOWIEITE RIOT.

Evanston, Ill., The Scene of a Lively Demonstration.

Chicago, July 11.—Followers of John Alexander Dowie, made another attempt to convert the citizens of Evanston and failed, as on former occasions. They visited the place in greater force than ever before, there being fully 200 of them, but their increased numbers only brought them a greater defeat. One half of the Dowieites were followers of "Zion" and the remainder were members of the paid bodyguard which Dowie maintains. The guards were intended to prevent any interference with the meeting, and when it commenced they formed around the Dowieites proper to hold back the crowd of fully 1,500 people, which had gathered rapidly as soon as it was known that another Dowie meeting was in progress. As on former occasions, eggs and vegetables were speedily prominent in the proceedings and the Dowie guards and those whom they were trying to protect were soon spattered with yolks and "battered" with old vegetables. Several fights resulted between the guards and people of the town, generally with damaging results to the guards. The entire police force of Evanston was called into service and after the chief of police had ordered the Dowieites to withdraw and had met with a refusal, he ordered his men to charge them. The police did not use their clubs and the guards held them back by sheer weight and force of numbers.

The crowd meanwhile was growing ugly and Mayor Bates of Evanston, seeing that unless something was done quickly people would be seriously hurt and possibly killed, ordered out a fire engine. The steamer at once turned a 4-inch stream on the Dowieites and they

Went Over Like Tenpins.

Women as well as men were thrown down by the stream and sent rolling in the mud. The people of Evanston danced and hooted with delight as the firemen steadily advanced, driving the Dowieites before them in utter rout. The work was done with impartiality and whatsoever Dowieite was dilatory in movement was washed along by the 4-inch stream.

As the Dowieites fled the dry method of attack came once more into favor and the bombardment of eggs and vegetables was resumed and aided materially the purging of the town of the presence of the Dowieites. Elder Piper of Dowie's church, who had been in command of the small army, was arrested on a charge of disorderly conduct. While he was being led to the station men and boys, armed with syringes containing dirty water and other liquids more objectionable, made him an object of especial attention, and he was in a sorry condition when the station doors closed behind him.

About 20 other Dowieites were taken into custody, more to save them from the crowd in the streets than for any other reason.

The Dowieites say they will return in greater force and the people of Evanston declare that it will only make the next riot just so much larger.

The Boat Capsized.

Iron Mountain, Mich., July 11.—Miss Louisa Tagly, niece of Father Dasylva of St. Joseph's church, and her guest, Miss Alice Donahue of Ishpeming, were drowned in West lake. Spread Eagle, a summer resort, 11 miles from here. The two girls and Miss Jacobs, accompanied by the priest and another man, were in a rowboat, which capsized. The two men and Miss Jacobs were saved.

Geographical Names.

If any one should speak to you about "s Gravenhaag," you would perhaps not know that they were talking about The Hague, but they would be, and would also be perfectly right, according to the second report of the American board of geographic names, just issued from the government printing office at Washington. Though the board does not hope for a reform in such matters, it says that the custom of anglicizing names of foreign places is absurd and hopes we will go no further in that direction, though we continue to say "The Hague," "Germany" instead of "Deutschland," "Italy" instead of "Italia," and so on through the list.

We must not write "Pittsburgh," for the board says the final "h" in "burgh" should be dropped.

Further, the board says we must, as far as possible, avoid the possessive forms; spell "centre" as here given in geographical names; change "borough" to "boro;" drop the hyphen entirely; also drop the words "city" and "town" as parts of names, and entirely eliminate diacritic characters.—New York Herald.

A Boy Champion.

One of the most remarkable swordsmen of the day in Italy, one of those old world nations in which the knowledge of fencing not only is an accomplishment, but a prime necessity of life, is 12-year-old Signor Attilio Monferrito. This lad has just won the national fencing tournament in Bologna. His antagonists were the most celebrated fencers in Italy, including Sartori, whose assistant Attilio used to be. Now the former employer, who was a prize winner in his day, is beaten by a mere boy.

MODEL NATIONAL FARM

Uncle Sam to Give Object Lessons in Agriculture.

SITE ON RIVER SIDE OF ARLINGTON

Four Hundred Acres to Be Used For a Great Experiment Station—All Kinds of Cereals, Fruits and Vegetables Will Be Grown on Advanced Scientific Principles.

Within a very few years one of the great sights of the national capital will be a perfectly appointed farm of 400 acres, with buildings, orchards, truck gardens and grainfields of every kind, says the Washington Post. All the fruits and vegetables of the United States or other countries which experiment shall prove to be capable of cultivation in this climate will be seen there. Systems of drainage and if necessary irrigation, model fencing, the most perfect methods of gathering and storing grain, fruits and vegetables will be exhibited. In addition there will be a home place of six acres where beautiful lawns, pretty shrubbery in artistic designs and suitable shade trees will give a lesson to the suburban resident as well as to the owner of a plantation in the beautifying of dwellings and their surroundings in the country.

To the scientific agriculturists and horticulturists this model farm, which will be made and maintained by the department of agriculture, will offer an opportunity for study in every branch of their science. Methods of cultivation of fruit trees, vegetables, cereals, the growing of grapes, the values of different kinds of fertilizers, will all be exhibited directly in the farm or in the records of its existence, which will be kept for reference.

The site selected for bringing this project to a reality is that portion of the Arlington estate which lies along the bank of the Potomac to the east of the main estate, now used as a cemetery. The McClellan gate to Arlington will be opposite the main gate to the farm, and the latter will occupy all of that rolling land between the river road to the east of Arlington and the river bank. It is already partially laid off, and this work will be continued. About the center of the big farm a plot of six acres will be reserved for the dwelling, barns, etc., and this portion will be treated from an artistic as well as a utilitarian standpoint.

Professor L. C. Corbett of the department of agriculture is in charge of the work and was brought to Washington from the experiment station in West Virginia especially for this purpose. In talking over the plans for the great model farm the capital is to have in the near future Professor Corbett was enthusiastic over the plan. He has gone over the ground and is very well satisfied with the outlook. The soil is a sandy loam and quite rich. Men are now at work plowing up the whole place and planting cowpeas. These will grow heavily by fall, when they will be plowed under, and rye will then be sown, which will also be plowed under when green next spring. This will provide a uniform fertilizer for the whole place and give a foundation for future work. Next fall the fruit and shade trees will be set out, and everything will be done as soon as possible, that the farm may take form in the least possible time.

The six acre lot in the center Professor Corbett intends to make a thing of beauty. It will be a park about the main buildings, and all around will be planted typical ornamental trees and shrubbery. It will be an object lesson in landscape gardening. Which trees and shrubs and how to plant them, what kinds of grass to use for lawn turf and the hundred other things experiment has taught will be at the service of those who aim to beautify and improve their homes.

As a central experiment plantation the great farm will have its highest value. The state agricultural stations are not able to maintain such large farms, and to this national one the horticulturists will be able to come for a sort of postgraduate course in the study of their science. Within its confines they will find the most extensive variety and largest collection of fruit trees in America, and this will include the small fruits, grapes, currants, gooseberries, etc.

A principal feature will be experiments in the cultivation of every fruit or vegetable now imported from other countries with a view to determining what can be raised here and the best method of cultivation. This branch will include vegetables of all kinds, fruits, hops, muskmelons, watermelons, squashes, grasses, forage crops and imported cereals, such as wheat and oats, etc.

The cultivation of fruit and experiments to discover what are the needs of each variety will be studied. The value of fertilizers and cross fertilizers will also be studied. Culture tests will be made of such crops as are planted to cover the ground after cereals have been reaped, such as vetches, clovers and new leguminous plants.

The farm will be devoted exclusively to horticultural demonstrations and experiments. Within five to seven years it will be complete.

Several amendments were ingrafted into the McLean platform and that document as amended was adopted with unanimity. Charles P. Salen, representative of Mayor Tom L. Johnson, was both temporary and permanent chairman of the convention, and the delegates repeatedly quoted Senator Hanna by shouting "Salen knows his business."
It was currently reported that Mayor Johnson desired the nomination of Frank S. Monnett as attorney general and that the McLean men wanted Monnett defeated. At any rate the defeat of Monnett was so decisive as to be a feature of the convention. Mr. Monnett, as attorney general, had brought suits against the Standard Oil company and other corporations to cancel their charters under the anti-trust laws. He had sought a third term nomination from the Republicans on the issue that he should be retained in that office to

Continue These Prosecutions.
After his defeat for the third nomination in 1899 he supported Bryan in 1900 on the anti-trust issue and canvassed Ohio and other states with Bryan. Judge Smalley, in presenting Monnett's name, said he was "known from the Golden Gate of San Francisco to the Hell Gate of New York as the enemy of trusts."

Noticing the absence of any portrait of Bryan among the decorations one of the delegates started to carry a small banner with Bryan's picture on it to the platform. The aisles were ordered cleared and the picture did not reach its destination. It was trampled under foot and spoiled during the demonstration when Colonel Kilbourne was escorted into the hall. Members of the committee on resolutions stated that several hours were spent in denouncing the Chicago and Kansas City platforms and the leader who stood on them. There are various rumors in connection with the senatorship to succeed Foraker. The names of John McLean and of Tom L. Johnson are most prominently mentioned in this connection.

YACHT RACE CALLED OFF.
Dead Calm and Thick Atlantic Fog Prevailed.

Newport, R. I., July 11.—The third race between Constitution, Columbia and Independence came to an inglorious end in a dead calm and the thickest kind of Atlantic fog. There was little time to form judgment on the relative speeds of the three boats, for in less than half an hour after the

Columbia behind by nearly a mile and the Independence by nearly two miles.

SESSION AT AN END.
Convention of United Society of Christian Endeavor Adjourns.
Cincinnati, July 11.—The 20th international convention of the United Society of Christian Endeavor was brought to a close here. In attendance the evening meeting was not up to expectations. Both President Clark and Secretary Baer expressed themselves as highly gratified with the convention, which they said, even if numerically small, allowed those who did attend to carry home with them a greater share of the blessings of the meetings.

NEW BOXER MOVEMENT.
Pu Chun and Prince Tuan Said to Be Implicated.
Shanghai, July 11.—A new Boxer movement is being started, according to Chinese intelligence from Sian Fu. Pu Chun, the heir apparent, with other members of Prince Tuan's family, has gone to join Prince Tuan on the borders of Mongolia, and there are strong indications that Prince Tuan is preparing to march against the foreigners with the tacit approval of the empress dowager.

Governor Allen May Resign.
San Juan, Porto Rico, July 11.—Governor Allen, when his attention was called to the report that he would resign in the near future, said: "I have not resigned and I shall not take any action in the matter until after I have seen President McKinley."

Captain Sigbee Improving.
New York, July 11.—Captain Sigbee, U. S. N., who is at Hampton, L. I., is greatly improved, but still confined to his bed. Captain Sigbee is suffering from erysipelas.

ANOTHER DOWIEITE RIOT.
Evanston, Ill., the Scene of a Lively Demonstration.
Chicago, July 11.—Followers of John Alexander Dowie, made another attempt to convert the citizens of Evanston and failed, as on former occasions. They visited the place in greater force than ever before, there being fully 200 of them, but their increased numbers only brought them a greater defeat. One half of the Dowieites were followers of "Zion" and the remainder were members of the paid bodyguard which Dowie maintains. The guards were intended to prevent any interference with the meeting, and when it commenced they formed around the Dowieites proper to hold back the crowd of fully 1,500 people, which had gathered rapidly as soon as it was known that another Dowie meeting was in progress. As on former occasions, eggs and vegetables were speedily prominent in the proceedings and the Dowie guards and those whom they were trying to protect were soon spattered with yolks and battered with old vegetables. Several fights resulted between the guards and people of the town, generally with damaging results to the guards. The entire police force of Evanston was called into service and after the chief of police had ordered the Dowieites to withdraw and had met with a refusal, he ordered his men to charge them. The police did not use their clubs and the guards held them back by sheer weight and force of numbers.
The crowd meanwhile was growing ugly and Mayor Bates of Evanston, seeing that unless something was done quickly people would be seriously hurt and possibly killed, ordered out a fire engine. The steamer at once turned a 4-inch stream on the Dowieites and they

Went Over Like Tenpins.
Women as well as men were thrown down by the stream and sent rolling in the mud. The people of Evanston danced and hooted with delight as the firemen steadily advanced, driving the Dowieites before them in utter rout. The work was done with impartiality and whatsoever Dowieite was dilatory in movement was washed along by the 4-inch stream.

As the Dowieites fled the dry method of attack came once more into favor and the bombardment of eggs and vegetables was resumed and aided materially the purging of the town of the presence of the Dowieites. Elder Piper of Dowie's church, who had been in command of the small army, was arrested on a charge of disorderly conduct. While he was being led to the station men and boys, armed with syringes containing dirty water and other liquids more objectionable, made him an object of especial attention, and he was in a sorry condition when the station doors closed behind him.

About 20 other Dowieites were taken into custody, more to save them from the crowd in the streets than for any other reason.

The Dowieites say they will return in greater force and the people of Evanston declare that it will only make the next riot just so much larger.

The Boat Capsized.
Iron Mountain, Mich., July 11.—Miss Louisa Tagly, niece of Father Dasylva of St. Joseph's church, and her guest, Miss Alice Donahue of Ishpeming, were drowned in West lake, Spread Eagle, a summer resort, 11 miles from here. The two girls and Miss Jacobs, accompanied by the priest and another man, were in a rowboat, which capsized. The two men and Miss Jacobs were saved.

Geographical Names.
If any one should speak to you about "s Gravenhaag," you would perhaps not know that they were talking about The Hague, but they would be, and would also be perfectly right, according to the second report of the American board of geographic names, just issued from the government printing office at Washington. Though the board does not hope for a reform in such matters, it says that the custom of anglicizing names of foreign places is absurd and hopes we will go no further in that direction, though we continue to say "The Hague," "Germany" instead of "Deutschland," "Italy" instead of "Italia," and so on through the list.
We must not write "Pittsburgh," for the board says the final "h" in "burgh" should be dropped.
Further, the board says we must, as far as possible, avoid the possessive forms; spell "centre" as here given in geographical names; change "borough" to "boro;" drop the hyphen entirely; also drop the words "city" and "town" as parts of names, and entirely eliminate diacritic characters.—New York Herald.

A Boy Champion.
One of the most remarkable swordsmen of the day in Italy, one of those old world nations in which the knowledge of fencing not only is an accomplishment, but a prime necessity of life, is 12-year-old Signor Attilio Monferrito. This lad has just won the national fencing tournament in Bologna. His antagonists were the most celebrated fencers in Italy, including Sartori, whose assistant Attilio used to be. Now the former employer, who was a prize winner in his day, is beaten by a mere boy.

MODEL NATIONAL FARM
Uncle Sam to Give Object Lessons in Agriculture.
SITE ON RIVER SIDE OF ARLINGTON
Four Hundred Acres to Be Used For a Great Experiment Station—All Kinds of Cereals, Fruits and Vegetables Will Be Grown on Advanced Scientific Principles.

Within a very few years one of the great sights of the national capital will be a perfectly appointed farm of 400 acres, with buildings, orchards, truck gardens and grainfields of every kind, says the Washington Post. All the fruits and vegetables of the United States or other countries which experiment shall prove to be capable of cultivation in this climate will be seen there. Systems of drainage and if necessary irrigation, model fencing, the most perfect methods of gathering and storing grain, fruits and vegetables will be exhibited. In addition there will be a home place of six acres where beautiful lawns, pretty shrubbery in artistic designs and suitable shade trees will give a lesson to the suburban resident as well as to the owner of a plantation in the beautifying of dwellings and their surroundings in the country.

To the scientific agriculturists and horticulturists this model farm, which will be made and maintained by the department of agriculture, will offer an opportunity for study in every branch of their science. Methods of cultivation of fruit trees, vegetables, cereals, the growing of grapes, the values of different kinds of fertilizers, will all be exhibited directly in the farm or in the records of its existence, which will be kept for reference.

The site selected for bringing this project to a reality is that portion of the Arlington estate which lies along the bank of the Potomac to the east of the main estate, now used as a cemetery. The McClellan gate to Arlington will be opposite the main gate to the farm, and the latter will occupy all of that rolling land between the river road to the east of Arlington and the river bank. It is already partially laid off, and this work will be continued. About the center of the big farm a plot of six acres will be reserved for the dwelling, barns, etc., and this portion will be treated from an artistic as well as a utilitarian standpoint.

Professor L. C. Corbett of the department of agriculture is in charge of the work and was brought to Washington from the experiment station in West Virginia especially for this purpose. In talking over the plans for the great model farm the capital is to have in the near future Professor Corbett was enthusiastic over the plan. He has gone over the ground and is very well satisfied with the outlook. The soil is a sandy loam and quite rich. Men are now at work plowing up the whole place and planting cowpeas. These will grow heavily by fall, when they will be plowed under, and rye will then be sown, which will also be plowed under when green next spring. This will provide a uniform fertilizer for the whole place and give a foundation for future work. Next fall the fruit and shade trees will be set out, and everything will be done as soon as possible, that the farm may take form in the least possible time.

The six acre lot in the center Professor Corbett intends to make a thing of beauty. It will be a park about the main buildings, and all around will be planted typical ornamental trees and shrubbery. It will be an object lesson in landscape gardening. Which trees and shrubs and how to plant them, what kinds of grass to use for lawn turf and the hundred other things experiment has taught will be at the service of those who aim to beautify and improve their homes.

As a central experiment plantation the great farm will have its highest value. The state agricultural stations are not able to maintain such large farms, and to this national one the horticulturists will be able to come for a sort of postgraduate course in the study of their science. Within its confines they will find the most extensive variety and largest collection of fruit trees in America, and this will include the small fruits, grapes, currants, gooseberries, etc.

A principal feature will be experiments in the cultivation of every fruit or vegetable now imported from other countries with a view to determining what can be raised here and the best method of cultivation. This branch will include vegetables of all kinds, fruits, hops, muskmelons, watermelons, squashes, grasses, forage crops and imported cereals, such as wheat and oats, etc.

The cultivation of fruit and experiments to discover what are the needs of each variety will be studied. The value of fertilizers and cross fertilizers will also be studied. Culture tests will be made of such crops as are planted to cover the ground after cereals have been reaped, such as vetches, clovers and new leguminous plants.

The farm will be devoted exclusively to horticultural demonstrations and experiments. Within five to seven years it will be complete.

The Shirt Waist Man.
The shirt waist is all right, says the Slater (Mo.) Rustler. It is practically the garment long ago adopted by the men and boys who preferred comfort to style, and it gives the clerk and business man an opportunity to keep cool and comfortable without being considered discourteous.
